PRODUCT POSITIONING

Canara Robeco Balanced Advantage Fund aims to generating long term capital appreciation by managing equity and debt allocations dynamically. The Fund aims for steady growth, especially during market ups and downs making it more suitable for investors as it takes away the burden of readjusting asset allocation between equity & debt. The fund invests in a careful blend of select stocks and debt securities and it uses an in-house allocation model seeking to limit the downside risk during a falling market and aiming to capture reasonable growth in a rising market.
