Further, SEBI vide letter dated November 3, 2021, has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities.

Pursuant to SEBI Master Circular for Mutual Funds dated June 27, 2024, the Scheme may deploy NFO proceeds in Triparty repo on Government securities or treasury bills (TREPS) before the closure of NFO period. However, the AMC shall not charge any investment management and advisory fees on funds deployed in TREPS during the NFO period.

Pending deployment of funds of the Scheme, in securities in terms of the investment objective, and for margin purposes, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the clause 12.16 of the SEBI Master Circular for Mutual Funds dated June 27, 2024, as amended from time to time.

Timelines for deployment of Funds mobilized in a New Fund Offer (NFO)

The funds mobilized during the New Fund Offer (NFO) shall be deployed in accordance with the asset allocation pattern of the scheme within 30 business days from the date of allotment of units. In exceptional cases where the AMC is not able to deploy the funds within this period, shall provide an explanation, including details of the efforts made to deploy the funds, to the Investment Committee of the AMC.

The Investment Committee may, if deemed necessary, shall extend the deployment timeline by an additional 30 business days, in accordance with SEBI circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2025/23 dated February 27, 2025. While granting an extension, the Committee shall examine the root cause of the delay. However, an extension shall not be granted if the scheme's assets are liquid and readily available.

If the funds are not deployed as per the asset allocation specified in the Scheme Information Document (SID) within the stipulated and extended timelines, the following measures shall apply:

1. **Restriction on Fresh Subscriptions**: The AMC shall not accept fresh inflows into the scheme until the funds are deployed as per the SID.
2. **Waiver of Exit Load**: No exit load shall be levied on investors exiting the scheme after 60 business days of non-complying with the asset allocation.
3. **Investor Notification**: The AMC shall inform all NFO investors about their option to exit the scheme without an exit load via email, SMS, or other appropriate communication channels.
4. **Reporting to Trustees**: Any deviation from the deployment timelines shall be reported to the Trustees at each stage.

Rebalancing due to Short Term Defensive Consideration:

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations only in terms of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. In the event of deviations, the fund manager will carry out rebalancing within 30 calendar days.

Timelines for Rebalancing of Portfolios in case of passive breach:

In the event of deviations from asset allocation due to passive breaches, the fund manager will carry out rebalancing within 30 business days. Where the portfolio is not rebalanced within 30 business days, justification for the same shall be placed before the Investment Committee and reasons for the same shall recorded in writing. The Investment committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of scheme is not rebalanced within the extended timelines, AMCs shall not be permitted to launch any new scheme till the time the portfolio is rebalanced. Further, no exit load shall be levied to the investors who exiting the scheme.

Additionally, the AMC shall report the deviation to the Trustees at each stage. In case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme, the AMC shall immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced. Subsequently, the AMC shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced. Additionally, the AMC shall disclose the deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

DEBT AND MONEY MARKETS IN INDIA

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets.

Securities in the debt market typically vary based on their tenure and rating. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The Government Securities market is the oldest and the largest component of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Sec market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc. The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non- Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), reverse repo transactions (temporary buy with an agreement to sell the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI) and similar securities. In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and non government debt vary from time to time.

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. PSU / DFI / Corporate paper with a residual maturity of less than 1 year are actively traded and offer a viable investment option.

Following table exhibits various debt instruments along with current yields as on April 15, 2025.

Instrument	Yield Range (% per annum)
Tri – Party Repo	5.40
91 days T-Bill	5.93
182 days T-Bill	6.01
364 days T-Bill	6.01
91 days CD/CP	6.50/ 6.55
182 days CD/CP	6.75 / 6.80
365 days CD/CP	6.80 / 6.85
10 years G-sec	6.49

(Source: Bloomberg, NDS OM and CCIL)

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro-economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The investment team will follow an active strategy to manage the assets of the fund.

The SAMCO Large & Mid Cap Fund is built on a cutting-edge momentum-based investment strategy that seeks to harness the power of market trends and corporate performance metrics. At its core, the fund employs SAMCO's proprietary C.A.R.E. system to with an aim to deliver superior risk-adjusted returns by systematically identifying and allocating capital to large & mid cap stocks with strong momentum indicators.

The C.A.R.E. system integrates four key dimensions of momentum—**Cross Sectional Momentum, Absolute Momentum, Revenue Momentum, and Earnings Momentum**. These parameters ensure that the portfolio remains optimized by focusing on stocks from the **top 250 companies by market capitalization**, as defined by the AMFI, that exhibit robust momentum traits. The use of derivatives and hedging further strengthens the strategy by mitigating risks during periods of market volatility.

The fund will invest between 35-65% of assets in the top 100 companies by market capitalisation, also referred to as large cap companies. The fund will also invest between 35-65% of assets in the companies ranked 101 –

250 by market capitalisation, also referred to as mid cap companies. The fund also has the flexibility to invest 0-30% of assets in companies beyond the top 250+ by market cap or in debt/money market instruments. The scheme may use derivatives instruments for purposes of hedging up to 80% of net assets and shall not exceed 50% of net assets for other than hedging purposes.

C.A.R.E. System: Key Parameters Explained

1. Cross Sectional Momentum: A Guide for Stock Selection

Cross Sectional momentum is the core criterion for stock selection within the large-cap universe. It involves identifying and investing in stocks that demonstrate superior performance relative to their peers. The fund evaluates the top 100 companies by market capitalization to pinpoint stocks that exhibit consistent price strength and outperform both their sector and broader indices. This approach ensures the fund capitalizes on leading stocks riding strong upward trends. By focusing on stocks with relative strength, the portfolio maintains a bias toward market leaders, avoiding laggards and ensuring efficient capital deployment. This technique aligns with momentum investing principles that have historically delivered alpha in equity markets.

2. Absolute Momentum: Enhancing Portfolio Resilience

Absolute momentum assesses the directional trend of stocks or the overall market, regardless of relative performance. If the trend turns negative, the fund employs tactical measures to safeguard capital. In scenarios where absolute momentum diminishes, the fund leverages derivatives and hedging strategies to reduce net equity exposure. This defensive stance protects against deep drawdowns, ensuring the portfolio remains resilient during adverse market conditions. The integration of absolute momentum provides a critical risk management overlay, shielding investors from severe losses while enabling participation in favourable market environments. This dynamic approach ensures a smoother investment experience across market cycles.

SAMCO's algorithms leverage advanced quantitative indicators to detect market extremes—identifying signals of euphoria and capitulation—and dynamically adjust portfolio allocations to protect capital and capture emerging opportunities.

3. Revenue Momentum: Identifying Growth Drivers

Revenue momentum focuses on companies exhibiting robust top-line growth. It emphasizes businesses that demonstrate consistent increases in sales, which often serve as a precursor to sustainable earnings growth. The fund analyses historical and projected revenue trends to identify stocks poised for significant topline momentum. Companies with strong product demand, market share expansion, or successful new product launches are prioritized in the portfolio. Revenue momentum ensures the inclusion of growth-oriented stocks that can sustain their market leadership, enhancing the portfolio's ability to capture long-term value creation.

4. Earnings Momentum: Capitalizing on Profit Acceleration

Earnings momentum identifies companies experiencing rapid growth in profitability at the PBT (Profit Before Tax) and PAT (Profit After Tax) levels. It reflects the capacity of businesses to translate operational efficiency and revenue growth into higher shareholder value. The fund evaluates earnings trends using metrics like earnings growth rate, profit margins, and earnings revisions. Companies with a proven track record of delivering consistent or accelerating earnings growth form the cornerstone of the portfolio. By focusing on earnings momentum, the portfolio gains exposure to companies that are not only growing but also improving operational efficiency, ensuring higher profitability and returns for investors.

The SAMCO Large & Mid Cap Fund's C.A.R.E. system represents a sophisticated and comprehensive approach to momentum investing. By integrating **Cross Sectional Momentum** for stock selection, **Absolute Momentum** for risk management, **Revenue Momentum** for growth identification, and **Earnings Momentum** for profitability insights, the fund achieves a balanced and forward-looking investment strategy.

This multi-dimensional system ensures the portfolio is well-positioned to capture opportunities in market upswings while safeguarding capital during downturns. The focus on large-cap stocks with robust fundamentals and momentum traits is at the core of the SAMCO Large & Mid Cap Fund.

The fund manager shall use derivatives within the permissible limits actively in-addition to hedging and rebalancing the portfolio.

For detailed derivative strategies, please refer to SAI.

Portfolio Turnover Policy

The Scheme is an open-ended scheme. It is expected that there would be a number of subscriptions and redemptions on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.

There may be an increase in transaction cost such as brokerage paid, if trading is done frequently. However, the cost would be negligible as compared to the total expenses of the Scheme. Frequent trading may increase the profits which will offset the increase in costs. The fund manager will endeavor to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. However, it is difficult to estimate with reasonable accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The Scheme performance would be benchmarked against **Nifty Large Midcap 250 Total Returns Index**

Justification for use of benchmark

The Scheme is required to invest minimum of 35% of total assets in equity & equity related instruments of large cap companies and mid cap stocks respectively. The proposed index is more suitable for the Scheme as the weight of large cap and midcap stocks in the Index better reflects the asset allocation pattern of the Scheme.

Further, as per clause 1.9 of SEBI Master Circular dated June 27, 2024, requires that mutual funds to adopt first tier benchmarks for schemes as notified by AMFI. Accordingly, the benchmark is selected from the benchmarks notified by AMFI for the category of scheme. The performance will be benchmarked to the Total Returns Variant of the Index.

The Trustee/AMC reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, subject to SEBI guidelines and other prevalent guidelines.

iii. **Portfolio Turnover Rate** – Not applicable as this is a new scheme.

iv. **Aggregate investment in the Scheme by Concerned scheme's Fund Manager(s)**: Not applicable as this is a new scheme.

For any other disclosure w.r.t investments by key personnel and AMC directors including regulatory provisions in this regard kindly refer SAI.

Investments of AMC in the Scheme – Pursuant to Regulation 25(16A) of the SEBI (MF) Regulations, 1996 and para 6.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024, the AMC will invest minimum amount as a percentage of AUM based on the risk associated with the Scheme and such investment will not be redeemed unless the Scheme is wound up. The AMC will conduct quarterly review to ensure compliance with above requirement which may change either due to change in value of the AUM or in the risk value assigned to the scheme. The shortfall in value of the investment, if any, will be made good within 7 days of such review.

In addition to investments as mandated under Regulation 25(16A) of the Regulations as mentioned above, the AMC may invest in the scheme during the continuous offer period subject to the SEBI (Mutual Funds) Regulations. As per the existing SEBI (Mutual Funds) Regulations, the AMC will not charge investment management and advisory fee on the investment made by it in the scheme.

The Sponsor, Trustee and their associates may invest in the scheme on an ongoing basis subject to SEBI (Mutual Funds) Regulations & circulars issued by SEBI from time to time. In addition, the funds managed by the sponsors, Samco Group may invest in the Scheme. The details are provided on www.samcomf.com.

In addition, the funds managed by the sponsors, Samco Group may invest in the Scheme. The details are provided on www.samcomf.com.

v. Risk-o-meter shall be evaluated on a monthly basis and the Risk-o-meter shall be disclosed along with portfolio disclosure on AMC's website and on AMFI website within 10 days from the close of each month.

vi. Scheme Summary Document (SSD) shall be updated on a Monthly basis or on changes in any specified fields, whichever is earlier. The same shall be uploaded on websites of the AMC, AMFI and stock exchanges.

III. OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit under the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

The Net Assets Value (NAV) of the Units under the Scheme shall be calculated as shown below:

NAV = **(Rs. Per unit)**	Market Value of the scheme's investments + other assets (including accrued interest) - all liabilities except unit capital & reserves ——————————————— Number of units outstanding at the end of the day

For example, if the net assets of the Scheme are Rs.149,36,40,000 and units outstanding are 100,00,000, then the NAV per unit will be computed as follows: 149,36,40,000 / 10,00,00,000 = Rs. 14.94 per unit. (rounded off to two decimals).

The NAV shall be calculated up to two decimal places. However, the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Plan / Option. The NAVs will be calculated and disclosed on all the Business Days.

While determining the price of the units, the mutual fund shall ensure that the repurchase price of an open ended scheme is not lower than 95 per cent of the Net Asset Value.

Valuation of the scheme's assets, calculation of the scheme's NAV and the accounting policies & standards will be subject to such norms and guidelines that SEBI may prescribe from time to time. For the detailed Valuation Policy and the accounting policy of the AMC, please refer the Statement of Additional Information.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI.

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, Registrar & Transfer Agent expenses, printing and stationery, bank charges etc. The Scheme, being an open-ended scheme, the NFO expenses shall be borne by the AMC/Sponsor.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 2.25% of the daily net assets of the scheme will be charged to the scheme as expenses. For the actual Annual Scheme Recurring expenses currently being charged, the investor should refer to the website of the Mutual Fund at https://www.samcomf.com/total-expense-ratio

B.	Additional expenses under regulation 52(6A) (c)	Upto 0.05%
C.	Additional expenses for gross new inflows from specified cities	Upto 0.30%

The recurring expenses of the Scheme (including the Investment Management and Advisory Fees) shall be as per the limits prescribed under the SEBI (MF) Regulations. These are as follows:

(I) Recurring expenses including the investment management and advisory fee:

Assets under management Slab (In ₹ crore)	Total expense ratio limits
On the first ₹ 500 crores of the daily net assets	2.25%
On the next ₹ 250 crores of the daily net assets	2.00%
On the next ₹ 1250 crores of the daily net assets	1.75%
On the next ₹ 3000 crores of the daily net assets	1.60%
On the next ₹ 5000 crores of the daily net assets	1.50%
On the next ₹ 40,000 crores of the daily net assets	Total expense ratio reduction of 0.05% for every increase of ₹ 5,000 crores of daily net assets or part thereof.
On the balance of the assets	1.05%

(II) In addition to the above, the following costs or expenses may be charged to the Scheme, as per sub regulation 52(6A) namely-

(a) brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions.

(b) expenses not exceeding 0.30% of daily net assets, if the new inflows from retail investors from such cities as specified by SEBI from time to time are at least - (i) 30% of gross new inflows in the scheme, or; (ii) 15% of the average assets under management (year to date) of the scheme, whichever is higher.

Provided that if inflows from retail investors from such cities are less than the higher of (i) or (ii) above, such expenses on daily net assets of the scheme shall be charged on proportionate basis.

Provided further that expenses charged under this clause shall be utilised for sales, marketing and distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from retail investors from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

These expenses are in abeyance with effect from March 1, 2023 till further instructions from SEBI.

(c) additional expenses not exceeding 0.05% of daily net assets of the scheme towards various permissible expenses.

Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable.

Any expenditure in excess of the limits specified in sub-regulations 52 (6) and 52 (6A)] shall be borne by the asset management company or by the trustee or sponsors.

(III) The AMC may charge Goods and service tax on investment and advisory fees to the Scheme in addition to the maximum limit of annual recurring expenses as prescribed in Regulation 52. Further, the below mentioned expenses and charges shall be borne by the Scheme within the maximum limit of annual recurring expenses as prescribed in Regulation 52.

a) Goods and Service tax on expenses other than investment and advisory fees; and,

b) brokerage and transaction costs (including Goods and service tax) incurred for the purpose of execution of trade in excess of 0.12% in case of cash market transactions, and 0.05% in case of derivatives transactions, if any.

Note:

a. These estimates have been made in good faith as per the information available and estimates made by the Investment Manager/ AMC and are subject to change inter-se or in total subject to prevailing Regulations.

b. The expenses towards Investment Management and Advisory Fees under Regulation 52(2) and the various sub-heads of recurring expenses mentioned under Regulation 52(4) of SEBI (MF) Regulations are apportionable without any internal cap in nature. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52 (2) and (4) respectively. Further, the additional expenses under Regulation 52(6A) (c) may be incurred either towards investment & advisory fees and/or towards other expense heads as stated above.

c. All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in Regular Plan. Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. and no commission for distribution of Units will be paid/ charged under Direct Plan.

Please refer the illustration given below in this regard:

Particulars	**Regular Plan**	**Direct Plan**
Amount Invested at the beginning of the year (in Rs.)	10,000	10,000
Returns before Expenses (in Rs.)	1,500	1,500
Expenses other than Distribution Expenses (in Rs.)	150	150
Distribution Expenses (in Rs.)	50	-
Returns after Expenses at the end of the Year(in Rs.)	1,300	1,350

Any circular/clarification issued by SEBI in regard to expenses chargeable to the Scheme/Plan(s) will automatically become applicable and will be incorporated in the SID/SAI/KIM accordingly.

The mutual fund would update the current expense ratios on its website (www.samcomf.com) at least three working days prior to the effective date of the change. Investors can refer 'Total Expense Ratio of Mutual Fund Schemes' section on https://www.samcomf.com/total-expense-ratio for Total Expense Ratio (TER) details.

Illustration of impact of expense ratio on scheme's returns

For any scheme, NAV is computed on a daily basis factoring in all the assets as well as liabilities of the Scheme (including expenses charged). Expenses charged to the Scheme bring down its NAV and hence the investor's net returns on a corresponding basis.

Illustration of expenses and impact on the return	
Opening NAV Per Unit for the Day (a)	10.0000
Closing NAV Per Unit for the Day (b)	11.0000
NAV Movement Per Unit (c = a – b)	1.0000
Flat Return for the Day after expenses (d = (c / a) %)	10.00%
TER % (e)	2.00%
Expenses for the Day (f = (b * e)/365)	0.0006
Expenses for the Day % (g = (f / b) %)	0.0055%
Flat Return prior to expenses for the Day (h = d + g)	10.0055%

Please Note:

The above illustration is purely given to explain the impact of the expense ratio on a scheme's return and should not be construed as an indicative return of the scheme.

Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor.

D. LOAD STRUCTURE

Load is an amount which is presently paid by the investor to redeem the Units from the Scheme. This amount net of Goods & Services Tax will be credited back to the Scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, investors may refer to the website of the AMC (www.samcomf.com) or may call at 18001034757 (toll-free numbers) or additional contact number +91 63572 22000 from 9.30 am to 6.00 pm (Monday to Friday).

Pursuant to SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, there shall be no entry Load for all Mutual Fund Schemes.

Type of Load	Load chargeable (as %age of NAV)
Entry Load	Not Applicable
Exit Load	• 10% of units can be redeemed at any time without an exit load. • Any redemption in excess of 10% of units will incur 1% exit load in the first 12 months. • No exit load, if redeemed after 12 months from the date of allotment of unit.

The load structure will be equally applicable to all special products offered under the schemes such as SIP, STP, etc. However, no load will be applicable for switches between the plans under the scheme.

The entire exit load (net of GST), charged, if any, shall be credited to the scheme. The Investor is requested to check the prevailing Load structure of the Scheme before investing.

Pursuant to SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, there shall be no entry Load for all Mutual Fund Schemes.

For any change in Load structure AMC will issue an addendum and display it on the website/Investor Service Centres.

Under the Scheme, the AMC/Trustee reserves the right to change / modify the Load structure if it so deems fit in the interest of smooth and efficient functioning of the Mutual Fund. The AMC/Trustee reserves the right to introduce / modify the Load depending upon the circumstances prevailing at that time subject to maximum limits as prescribed under the Regulations.

The Redemption Price however, will not be lower than 95% of the NAV. Any imposition or enhancement of Load in future shall be applicable on prospective investments only. The difference between the Redemption price and Sale price at any point in time shall not exceed the permitted limit as prescribed by SEBI from time to time which is presently 5% calculated on the Sale Price.

At the time of changing the Load Structure:

i. An Addendum detailing the changes will be attached to Scheme Information Document and Key Information Memorandum. The addendum may be circulated to all the distributors / brokers so that the same can be attached to all Scheme Information Documents and Key Information Memorandum already in stock.

ii. The addendum will be displayed on the website of the AMC and arrangements will be made to display the addendum in the form of a notice in all the Investor Service Centres and distributors / brokers' office.

iii. The introduction of the Exit Load along with the details may be stamped in the acknowledgement slip issued to the Investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such Load.

iv. Any other measure which the Mutual Fund may consider necessary.

The Trustee/AMC reserves the right to change the load structure subject to the limits prescribed under the Regulations. Any change in load structure shall be only on a prospective basis i.e. any such changes would be chargeable only for Redemptions from prospective purchases (applying first in first out basis).

Methodology of calculation of Exit Load and Redemption Amount:

Exit Load: 1% if units are redeemed or switched out on or before completion of 12 months from the date of allotment of units. Nil if units are redeemed or switched out after completion of 12 months from the date of allotment of units.

Amount invested on Jan 01, 2024 and Applicable NAV: Rs. 5,000 @ Rs. 10 per unit;

No. of units Allotted on Jan 01, 2024: 500

Amount invested on Feb 01, 2024 and Applicable NAV: Rs. 11,000 @ Rs. 11 per unit

No. of units Allotted on Feb 01, 2024: 1000

Units redeemed on Jan 02, 2025: 700

Applicable NAV on Jan 02, 2025: Rs. 12 per unit

Exit Load Calculation Methodology (on First-in First Out (FIFO) basis) for the 700 units redeemed on Jan 02, 2025 is given as follows:

- Exit load on 500 units bought on Jan 01, 2024 which has completed more than 12 months on date of redemption viz Jan 02, 2025: Nil
- Exit load on the balance 200 units bought on Feb 01, 2024 which has not completed 12 months on date of redemption viz Jan 02, 2025 is as follows:

Step 1: Applicable NAV * Exit Load applicable in % = Exit Load Amount per unit i.e. Rs. 12 * 1% = Rs. 0.12 per unit;

Step 2: Applicable NAV - Exit Load Amount per unit = Repurchase price per unit; i.e. Rs. 12- Rs. 0.12 = Rs.11.88 per unit.

Calculation of redemption amount:

No. of units redeemed (Total 700 units)	Whether 12 months from date of allotment completed (yes/ no)	Exit Load applicable (in %)	NAV per unit applied after consideration of Exit Load, if any	Total Exit Load Amount (in Rs.) on units redeemed	Redemption amount after exit load i.e. Units*NAV applied
500 units	Yes	Nil	Rs. 12.00	Nil	Rs. 6,000
200 units	No	1%	Rs. 11.88	Rs. 24	Rs. 2,376
				Total Redemption Amount →	**Rs. 8,376**

Note: The above illustration is only given to explanation the methodology of calculation of Exit Load and Redemption Amount. The actual redemption amount would depend on the prevailing Exit Load, applicable taxes, if any, and other terms and conditions mentioned in the scheme documents of the Scheme.

SECTION II

I. INTRODUCTION

A. DEFINITIONS/INTERPRETATION

In this SID, all references to "U.S.$" or "$" are to United States of America Dollars and "Rs." are to Indian Rupees.

For detailed description please click the link: www.samcomf.com.

B. RISK FACTORS

i. Standard Risk Factors:

- Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on the various factors and forces affecting the capital markets.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- Samco Large & Mid Cap Fund is the name of the Scheme and does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of ₹1 lakh made by it towards setting up the Fund.
- Samco Large & Mid Cap Fund is not a guaranteed or assured return scheme.

ii. Scheme Specific Risk Factors

Risks associated with investments in Equity and Equity related instruments

- Equity and equity related securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio. Also, the value of the Scheme investments may be affected by interest rates, currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments which may have an adverse bearing on individual Securities, a specific sector or all sectors.
- Investments in equity and equity related securities involve a degree of risk and investors should not invest in the equity Schemes unless they can afford to take the risk of losing their investment.
- Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors.

Risks associated with investments in Derivatives

- Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Trading in derivatives carries a high degree of risk although they are traded at a relatively small amount of margin which provides the possibility of great profit or loss in comparison with the principal investment amount. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have an impact on their value and consequently, on the NAV of the Units of the Scheme.

- The derivatives market in India is nascent and does not have the volumes that may be seen in other developed markets, which may result in volatility to the values.
- Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors.
- Investment in derivatives also requires the maintenance of adequate controls to monitor the transactions entered into the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. Even a small price movement in the underlying security could have an impact on their value and consequently, on the NAV of the Units of the Scheme.
- The Scheme may face execution risk, whereby the rates seen on the screen may not be the rate at which the ultimate execution of the derivative transaction takes place.
- The Scheme may find it difficult or impossible to execute derivative transactions in certain circumstances. For example, when there are insufficient bids or suspension of trading due to price limit or circuit breakers, the Scheme may face a liquidity issue.
- The option buyer's risk is limited to the premium paid, while the risk of an options writer is unlimited. However, the gains of an options writer are limited to the premiums earned.
- The exchange may impose restrictions on exercise of options and may also restrict the exercise of options at certain times in specified circumstances and this could impact the value of the portfolio.
- The writer of a put option bears the risk of loss if the value of the underlying asset declines below the exercise price. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the exercise price, as per extant regulations.
- Investments in index futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks.
- The Scheme bears a risk that it may not be able to correctly forecast future market trends or the value of assets, indices or other financial or economic factors in establishing derivative positions for the Scheme.
- The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets.
- There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. The counter party may default on a transaction before settlement and therefore, the Scheme is compelled to negotiate with another counterparty at the then prevailing (possibly unfavorable) market price.
- Derivatives also carry a market liquidity risk where the derivatives cannot be sold (unwound) at prices that reflect the underlying assets, rates and indices.
- Where derivatives are used for hedging, such use may involve a basis risk where the instrument used as a hedge does not match the movement in the instrument/ underlying asset being hedged. The risk may be inter-related also e.g. interest rate movements can affect equity prices, which could influence specific issuer/industry assets.
- Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of investment strategies depends upon the ability of the fund manager(s) to identify such opportunities which may not be available at all times. Identification and execution of the strategies to be pursued by the fund manager(s) involve uncertainty and decision of fund manager(s) may not always be profitable. No assurance can be given that the fund manager(s) will be able to identify or execute such strategies.
- The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Risks associated with covered call strategy

- Writing call options are highly specialized activities and entail higher than ordinary investment risks. In such investment strategy, the profits from call option writing is capped at the option premium, however the downside depends upon the increase in value of the underlying equity shares. This downside risk is reduced by writing covered call options.
- The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement. This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the Scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity, or can cause exit issues if the strike price at which the call option contracts have been written

become illiquid. Hence, the Scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.

- The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the Scheme would be at a loss.

Risk factors associated with investing in Foreign Securities

Subject to necessary approvals and within the investment objectives / asset allocation pattern of the Scheme may also invest in permitted foreign securities which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, repatriation of capital due to exchange controls and political circumstances. It is the AMC's belief that investment in foreign securities offers new investment and portfolio diversification opportunities into multimarket and multi-currency products.

The Scheme may invest in units/securities issued by overseas companies listed on recognized stock exchanges overseas and other securities in accordance with the provisions of clause 12.19 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, subject to a maximum of US$ 1 billion at in the aggregate at the Mutual Fund level and upto a maximum of US$ 300 million in overseas Exchange Traded Funds (ETFs) at the Mutual Fund level or such limits as may be prescribed by SEBI from time to time. However, in case the overall industry limit or such other limit as prescribed by SEBI has been breached, the Scheme would temporarily not invest in the overseas securities.

Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the Scheme. Since the Scheme would invest only partially in foreign securities, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme. However, such investments also entail additional risks not only limited to the following.

Country Risk: The Country risk arises from the inability of a country, to meet its financial obligations. It is the risk encompassing economic, social and political conditions in a foreign country, which might adversely affect foreign investors' financial interests. In addition, country risks would include events such as introduction of extraordinary exchange controls, economic deterioration, bi-lateral conflict leading to immobilisation of the overseas financial assets and the prevalent tax laws of the respective jurisdiction for execution of trades or otherwise.

Currency Risk: Moving from Indian Rupee (INR) to any other currency involves currency risk. To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee.

Interest Rate Risk: The pace and movement of interest rate cycles of various countries, though loosely co-related, can differ significantly. Investments in securities of countries other than India, the Scheme stand exposed to their interest rate cycles.

Repatriation Risk: The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment.

Risks associated with investments in Fixed Income Securities:

The following are the risks associated mainly with investment in Fixed Income Securities:

Interest Rate Risk: This risk is associated with movements in interest rate, which depend on various factors such as government borrowing, inflation, economic performance etc. Fixed income securities such as government bonds, corporate bonds and money market instruments etc. run price-risk or interest-rate risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices generally increase. The extent of fall or rise in the prices depends upon factors such as coupon, maturity of the security, the yield level at which the security is being traded. The longer the time to a bond's maturity, the greater is its interest rate risk. The NAV of the Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.

Re-investment Risk: Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

Spread Risk: Spreads between various fixed income securities may widen or contract. E.g.: Corporate Bonds are exposed to the risk of widening of the spread between corporate bonds and gilts. Prices of corporate bonds tend to fall if this spread widens which will affect the NAV of the scheme accordingly. Similarly, in case of floating rate securities, where the coupon is expressed in terms of a spread or mark up over the benchmark rate, widening of the spread results in a fall in the value of such securities.

Liquidity Risk related to fixed income instruments: This risk pertains to how saleable a security is in the market or the ease at which a security can be sold at or close to its true value. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of some of the investments. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. The liquidity of debt securities may change, depending on market conditions. At the time of selling the security, the security can become less liquid (wider spread) or illiquid, leading to loss in value of the portfolio. Securities that are unlisted generally carry a higher liquidity risk compared to listed securities.

Liquidity risk is greater for thinly traded securities such as, lower-rated bonds, bonds that were part of a smaller issue, bonds that have recently had their credit rating downgraded or bonds sold by an infrequent issuer. Bonds are generally the most liquid during the period right after issuance when the typical bond has the highest trading volume.

Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses when the security is finally sold.

Credit Risk / Default Risk: Credit risk is the risk that the issuer of a debenture/ bond or a money market instrument may default on interest and /or principal payment obligations and/or on violation of covenant(s) and/or delay in scheduled payment(s). Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer.

Government Security is a sovereign security and the default risk is considered to be the least/zero. Corporate bonds carry a higher credit risk than Government Securities. Within corporate bonds also there are different levels of safety. Credit risks of most issuers of debt securities are rated by independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from “AAA” (read as “Triple A” denoting “Highest Safety”) to “D” (denoting “Default”), with about 6 distinct ratings between the two extremes. A bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

Counterparty Risk: This is the risk of failure of counterparty to the transaction to deliver securities against consideration received or to pay consideration against securities delivered, in full or in part or as per the agreed specification. There could be losses to the Scheme in case of counterparty default.

Settlement Risk: Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make purchases in intended securities due to settlement problems could cause the Scheme to miss certain investment opportunities. Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

Duration risk: The modified duration of a bond is a measure of its price sensitivity to interest rates movements, based on the average time to maturity of its interest and principal cash flows. Bond portfolio managers increase average duration when they expect rates to decline, to get the most benefit, and decrease average duration when they expect rates to rise, so as to minimize the negative impact. If rates move in a direction contrary to their expectations, they lose.

Inflation risk: Inflation causes tomorrow’s currency to be worth less than today’s; in other words, it reduces the purchasing power of a bond investor’s future interest payments and principal, collectively known as “cash flows.”

Inflation also leads to higher interest rates, which in turn leads to lower bond prices. Inflation-indexed securities such as Treasury Inflation Protection Securities (TIPS) are structured to remove inflation risk.

Prepayment Risk: The borrower may repay the receivables earlier than scheduled, which may result in change in the yield and tenor for the Scheme.

Call risk: Some corporate, municipal and agency bonds have a "call provision" entitling their issuers to redeem them at a specified price on a date prior to maturity. Declining interest rates may accelerate the redemption of a callable bond, causing an investor's principal to be returned sooner than expected. In that scenario, investors have to reinvest the principal at the lower interest rates. (See also Reinvestment risk.)

Performance Risk: Performance of the Scheme may be impacted with changes in factors which affect the capital market and in particular the debt market.

Risks associated with Investing in Structured Obligation (SO) & Credit Enhancement (CE) rated securities

The risks factors stated below for the Structured Obligations & Credit Enhancement are in addition to the risk factors associated with debt instruments. Credit rating agencies assign CE rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms and could include guarantee, shortfall undertaking, letter of comfort, etc. from another entity. This entity could be either related or non-related to the issuer like a bank, financial institution, etc. Credit enhancement could include additional security in form of pledge of shares listed on stock exchanges, etc. SO transactions are asset backed/ mortgage backed securities, securitized paper backed by hypothecation of car loan receivables, securities backed by trade receivables, credit card receivables etc. Hence, for CE rated instruments evaluation of the credit enhancement provider, as well as the issuer is undertaken to determine the issuer rating. In case of SO rated issuer, the underlying loan pools or securitization, etc. is assessed to arrive at rating for the issuer.

Liquidity Risk: SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities lack a well-developed secondary market in India, and due to the credit enhanced nature of CE securities as well as structured nature of SO securities, the liquidity in the market for these instruments is adversely affected compared to similar rated debt instruments. Hence, lower liquidity of such instruments, could lead to inability of the scheme to sell such debt instruments and generate liquidity for the scheme or higher impact cost when such instruments are sold.

Credit Risk: The credit risk of debt instruments which are CE rated is based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise due to inability of the investors to enforce the structure due to issues such as legal risk, inability to sell the underlying collateral or enforce guarantee, etc. In case of SO transactions, comingling risk and risk of servicer increases the overall risk for the securitized debt or assets backed transactions. Therefore, apart from issuer level credit risk such debt instruments are also susceptible to structure related credit risk.

Risks associated with investments in securitised paper

Types of securitised debt vary and carry different levels and types of risks. Credit risk on securitised bonds depends upon the originator and varies depending on whether they are issued with recourse to the originator or otherwise. Even within securitised debt, AAA or equivalent rated securitised debt offers lesser risk of default than AA rated securitised debt. A structure with recourse will have a lower credit risk than a structure without recourse.

As underlying assets in securitised debt may assume different forms and the general types of receivables include auto finance, credit cards, home loans or any such receipts, credit risks relating to these types of receivables depend upon various factors including macro economic factors of these industries and economies. Specific factors like nature and adequacy of property mortgaged against these borrowings, nature of loan agreement/ mortgage deed in case of home loan, adequacy of documentation in case of auto finance and home loans, capacity of borrower to meet its obligation on borrowings in case of credit cards and the intention of the borrower influence the risks relating to the asset borrowings underlying the securitised debt.

Changes in market interest rates and pre-payments may not change the absolute amount of receivables for the investors, but may have an impact on the reinvestment of the periodic cash flows that the investor receives in the securitised paper.

Limited Liquidity & price Risk:

Presently, the secondary market for securitised papers is not very liquid. There is no assurance that a deep secondary market will develop for such securities. This could limit the ability of the Fund to resell them. Even if a secondary market develops and sales were to take place, these secondary transactions may be at a discount to the initial issue price due to changes in the interest rate structure.

Risks due to possible prepayments:

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. Full prepayment of underlying loan contract may arise under any of the following circumstances:

- obligor pays the receivable due from him at any time prior to the scheduled maturity date of that receivable; or
- receivable is required to be repurchased by the seller consequent to its inability to rectify a material misrepresentation with respect to that receivable; or
- the servicer recognizing a contract as a defaulted contract and hence repossessing the underlying asset and selling the same.

In the event of prepayments, investors may be exposed to changes in tenor and yield.

Bankruptcy of the originator or seller:

If the originator becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the sale from originator to the Trust was not a sale then the Fund could experience losses or delays in the payments due. All possible care is generally taken in structuring the transaction so as to minimize the risk of the sale to the Trust not being construed as a "True Sale". Legal opinion is normally obtained to the effect that the assignment of receivables to the Trust in trust for and for the benefit of the investors, as envisaged herein, would constitute a true sale.

Bankruptcy of the investor's agent:

If an investor's agent becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the recourse of the investor's agent to the assets/receivables is not in its capacity as agent/Trustee but in his personal capacity, then an investor could experience losses or delays in the payments due under the swap agreement. All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by an investor's agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of the investor's agent. Legal opinion is normally obtained to the effect that the investors agent's recourse to assets/ receivables is restricted in his capacity as agent and trustee and not in its personal capacity.

Credit Rating of the Transaction/Certificate:

The credit rating is not a recommendation to purchase, hold or sell the Certificate in as much as the ratings do not comment on the market price of the Certificate or its suitability to a particular investor. There is no assurance by the rating agency either that the rating will remain at the same level for any given period of time or that the rating will not be lowered or withdrawn entirely by the rating agency.

Risk of Co-mingling:

The servicers normally deposit all payments received from the obligors into the collection account. However, there could be a time gap between collection by a servicer and depositing the same into the collection account especially considering that some of the collections may be in the form of cash. In this interim period, collections from the loan agreements may not be segregated from other funds of the servicer. If the servicer fails to remit such funds, due to investors, the investors may be exposed to a potential loss. Due care is normally taken to ensure that the servicer enjoys the highest credit rating on a standalone basis to minimize co-mingling risk.

Risks associated with Short Selling & Securities Lending

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

Short-selling is the sale of shares or securities that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock/security he shorted and returns the stock/security to the lender to close out the loan. The inherent risks are Counterparty risk and liquidity risk of the stock/security being borrowed. The security being short sold might be illiquid or become illiquid and covering of the security might occur at a much higher price level than anticipated, leading to losses.

Risks associated with investing in REITs and InvITs

REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the anticipated trends. The NAV of the scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, settlement periods and transfer procedures. The scheme will undertake active portfolio management as per the investment objective to reduce the market risk.

i) **Liquidity Risk**: This refers to the ease with which securities/instruments of REITs/InvITs can be sold. There is no assurance that an active secondary market will develop or be maintained. Hence, there could be times when trading in the units is infrequent. The subsequent valuation of illiquid units may reflect a discount from the market price of comparable securities/instruments for which a liquid market exists. As these products are new to the market they are likely to be exposed to liquidity risk.
ii) **Reinvestment Risk**: Investments in securities/instruments of REITs and InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or Payout of Income Distribution cum Capital Withdrawal, etc. Consequently, the proceeds may get invested in assets providing lower returns.
iii) **Price Risk**: Securities/Instruments of REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. The extent of fall or rise in the prices depends upon factors such as general market conditions, factors and forces affecting capital market, real estate and infrastructure sectors, level of interest rates, trading volumes, settlement periods and transfer procedures.
iv) **Interest Rate Risk:** Securities/Instruments of REITs and InvITs run interest rate risk. Generally, when interest rates rise, prices of units fall and when interest rates drop, such prices increase.
v) **Credit Risk**: Credit risk means that the issuer of a REIT/InvIT security / instrument may default on interest payment or even on paying back the principal amount on maturity. Securities / Instruments of REITs and InvITs are likely to have volatile cash flows as the repayment dates would not necessarily be pre-scheduled.
vi) **Regulatory/Legal Risk**: REITs and InvITs being new asset classes, rights of unit holders such as right to information etc. may differ from existing capital market asset classes under Indian Law.

Risks associated with investing in Tri-party Repo (TREPS) through CCIL

The Mutual Fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India Limited (CCIL). All transactions of the Mutual Fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus, reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The Mutual Fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time i.e., in the event that the default waterfall is triggered and the contribution of the Mutual Fund is called upon to absorb settlement/default losses of another member by CCIL, the Scheme may lose an amount equivalent to its contribution to the default fund.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

Risks associated with investing in repo transactions in corporate bonds

The market for the aforesaid product is illiquid. Hence, repo obligations cannot be easily sold to other parties.

If a counterparty fails, the scheme would have to take recourse to the collateral provided. If a counterparty fails to repay and the value of the collateral falls beyond the haircut, then the Scheme would be exposed to a loss of interest or principal.

Further, if the Scheme needs to take recourse to the debt securities provided as collateral, and the issuer of the debt securities makes a default, the scheme may lose the whole, or substantial portion of the amount.

This risk is somewhat mitigated by the fact that only bonds which have credit rating of AA and above can be accepted as collateral for repo transactions.

Risks associated with transaction in Units through stock exchange(s)

In respect of transaction in Units of the Scheme through Bombay Stock Exchange (“BSE”) and / or National Stock Exchange (“NSE”), allotment and redemption of Units on any Business Day will depend upon the order processing / settlement by NSE and /or BSE and their respective clearing corporations on which the Fund has no control.

Risks associated with Restrictions on Redemption

The Trustee and the AMC may impose restrictions on redemptions when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets. Accordingly, such restriction may affect the liquidity of the Scheme and there may be a delay in investors receiving part of their redemption proceeds.

Risks associated with segregated portfolio

The unit holders may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in the segregated portfolio, the AMC shall enable listing of units of segregated portfolio on the recognized stock exchange. The risks associated in regard to the segregated portfolio are as follows:

- The investors holding units of the segregated portfolio may not be able to liquidate their holdings till the time of recovery of money from the issuer.
- The security comprising the segregated portfolio may not realize any value.
- Listing of units of the segregated portfolio on a recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units of the segregated portfolio on the stock exchange.
- The trading price of units on the stock exchange may be significantly lower than the prevailing Net Asset Value (NAV) of the segregated portfolio.

C. RISK MITIGATION STRATEGIES

Investments in Equity and equity related instruments including derivatives, debt and money market instruments carry various risks such as inability to sell securities, trading volumes and settlement periods, market risk, interest rate risk, liquidity risk, default risk, reinvestment risk etc. Whilst such risks cannot be eliminated, they may be mitigated by diversification and hedging.

In order to mitigate the various risks, the portfolio of the Scheme will be constructed in accordance with the investment restriction specified under the Regulations which would help in mitigating certain risks relating to investments in securities market.

Further, the AMC has necessary framework in place for risk mitigation at an enterprise level. The Risk Management division is an independent division within the organization. Internal limits are defined and judiciously monitored. Risk indicators on various parameters are computed and are monitored on a regular basis. There is a Board level Committee, the Risk Management Committee of the Board, which enables a dedicated focus on risk factors and the relevant risk mitigates.

Risk control measures with respect to investment Equity and Equity related instruments

Risk	Risk mitigation strategy
Market Risk	Endeavour to have a well- diversified portfolio of good companies with the ability to use cash/derivatives for hedging.
Business Risk	Portfolio companies carefully selected to include those with perceived good quality of earnings.
Derivatives Risk	Endeavour to have a well-diversified portfolio by constructing appropriate derivative strategies and continuous monitoring of the derivatives positions and strict adherence to the regulations.
Concentration Risk	The scheme shall endeavor to ensure diversification by investing across the spectrum of securities/issuers/sectors.
Liquidity Risk	Periodic Monitoring of portfolio liquidity.
Performance Risk	Endeavour to have a well-diversified portfolio of good companies, carefully selected to include those with perceived good quality of earnings.

Risk control measures with respect to Debt and Money Market Instruments

Risk	Risk mitigation strategy
Interest Rate Risk	Active duration management strategy; control portfolio duration and actively evaluate the portfolio structure with respect to existing interest rate scenario.
Market Risk	Endeavour to have a well-diversified portfolio of high quality securities.
Volatility Risk	There is the risk of volatility in markets due to external factors like liquidity flows, changes in the business environment, economic policy etc. The scheme will manage volatility risk through diversification.
Concentration Risk	Ensuring diversification by investing across the spectrum of securities/issuers/.
Liquidity Risk	Control portfolio liquidity at portfolio construction stage.

Credit risk or default risk	Apart from the basic examination, management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower.

Risk control measures with respect to REITs and InvITs

Risk	Risk mitigation strategy
Market Risk	REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the anticipated trends. The NAV of the Scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, Real Estate and Infrastructure sectors, settlement periods and transfer procedures. To mitigate this, the maximum exposure to units of REITs and InvITs is capped at 10% of the portfolio.
Liquidity Risk	This refers to the ease with which REIT/InvIT units can be sold. There is no assurance that an active secondary market will develop or be maintained. Hence there would be times when trading in the units could be infrequent. The subsequent valuation of illiquid units may reflect a discount from the market price of comparable securities for which a liquid market exists. Regular monitoring of the REITs and InvITs liquidity/ trading volume & changes in market conditions/ regulatory changes will help mitigate the same.
Interest Rate Risk	Generally, there would be an inverse relationship between the interest rates and the price of units. Regular monitoring and evaluating the portfolio structure with respect to changing interest rate scenario.

Risk control with respect to derivatives

As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations.

Mitigation- Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. All equity derivatives trade will be done only on the exchange with guaranteed settlement.

Risk control with respect to investment in Foreign Securities

Since the assets may be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.

Mitigation - The scheme shall have the option to enter into permissible instruments (subject to applicable regulations by SEBI/RBI) for the purposes of hedging against the foreign exchange fluctuations.

II. INFORMATION ABOUT THE SCHEME

A. WHERE WILL THE SCHEME INVEST?

Detailed description of the instruments mentioned in Section I is provided below:

Equity and Equity Related Instruments

The corpus of the scheme shall be pre-dominantly invested in equity and equity related instruments as may be permitted under the Regulations. Equity related instruments include convertible debentures, convertible preference shares, warrants carrying the right to obtain equity shares, equity derivatives and such other instrument as may be specified by SEBI from time to time.

Equity Derivatives

Equity Derivatives are financial instruments, generally traded on an exchange, the price of which is directly dependent upon (i.e., "derived from") the value of equity shares or equity indices. The equity derivatives may take the following forms:-

Futures:

Futures are exchange-traded contracts to sell or buy financial instruments for future delivery at a date and at an agreed price. SEBI has permitted futures contracts on indices and individual stocks with maturity of 1 month, 2 months and 3 months on a rolling basis. The futures contracts are settled on last Thursday (or immediately preceding trading day if Thursday is a trading holiday) of each month. The final settlement price is the closing price of the underlying stock(s)/index.

Options:

Option is a contract which provides the buyer of the option the right, without the obligation, to buy or sell a specified asset at the agreed price on or up to a particular date. Option contracts are of two types viz: (a) Call Option - The option that gives the buyer the right but not the obligation to buy specified quantity of the underlying asset at the strike price is a call option. (b) Put Option – The option that gives the buyer the right but not the obligation to sell is called put option.

Foreign Securities

The Scheme may also invest in suitable investment avenues in foreign securities in overseas financial markets for the purpose of diversification, commensurate with the Scheme objectives and subject to necessary stipulations by SEBI / RBI. Towards this end, the Mutual Fund may also appoint overseas investment advisors and other service providers, to the extent permissible under the Regulations.

The Scheme may, with the approval of SEBI / RBI, where required invest in:

i. ADRs/ GDRs issued by Indian or foreign companies
ii. Equity of overseas companies listed on recognized stock exchanges overseas
iii. Initial and follow-on public offerings for listing at recognized stock exchanges overseas

As per clause 12.19 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the aggregate ceiling for overseas investments is USD 7 billion as per the above SEBI circulars. Within the overall limit of USD 7 billion, mutual funds can make overseas investments subject to a maximum of USD 1 billion per mutual fund. The overall ceiling for investment in overseas ETFs that invest in Securities is USD 1 billion subject to a maximum of USD 300 million per mutual fund. However, in case the overall industry limit as prescribed by SEBI has been breached, the Scheme would temporarily not invest in the overseas securities.

Since the investment in overseas ETF is a fund of funds scheme, in accordance with SEBI regulations, the restriction on the investments in mutual fund units up to 5% of net assets of the Scheme and which prohibits charging of fees shall not be applicable to investments in mutual funds in foreign countries. However, the management fees and other expenses charged by a mutual fund in foreign countries along with the management fee and recurring expenses charged to the Scheme shall not exceed the total limits on expenses as prescribed under Regulation 52(6) of the SEBI Regulations.

During the NFO, the scheme does not intend to invest in overseas securities. Further, the investment in overseas securities will be made after receipt of approval and release of limits from SEBI.

Subject to the approval of RBI / SEBI and conditions as maybe prescribed by them, the Mutual Fund may open one or more foreign currency accounts abroad either directly, or through the custodian/sub-custodian, to facilitate investments for its efficient management. However, the use of such instruments shall be as permitted from time to time' and with prior approval of SEBI, as the case may be.

Investment in Debt and Money Market Instruments

The Scheme will retain the flexibility to invest in the entire range of debt instruments and money market instruments. These instruments are more specifically highlighted below:

Certificate of Deposit (CD)

Certificate of Deposit (CD) is a negotiable money market instrument issued by Scheduled Commercial Banks (SCBs) and select All India Financial Institutions (FIs) that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the SCBs is between 7 days to 1 year, whereas, in case of FIs, maturity is 1 year to 3 years from the date of issue. CDs also are issued at a discount to face value and can be traded in secondary market.

Tri-party Repo in Government Securities

Tri-party Repo means a repo contract where a third entity (apart from the borrower and lender), called a Tri-Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction. The Scheme shall undertake Tri-party Repo transactions in Government Securities.

Commercial Paper (CP)

Commercial Paper (CP) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and All India Financial Institutions as an alternative source of short term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity. CP can be issued for maturities between a minimum of 15 days and a maximum up to 1 year from the date of issue.

Repo / Reverse Repo

Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price. The transaction results in collateralized borrowing or lending of funds. Presently in India, Central Government Securities, State Government securities and T-Bills are eligible for Repo/Reverse Repo.

Treasury Bill (T-Bills) / Cash Management Bill (CMB)

Treasury Bills are issued by the Government of India to meet their short term borrowing requirements. T-Bills are issued for maturities of 14 days, 91 days, 182 days and 364 days. The Scheme may also invest in Cash Management Bill (CMB) issued by the Government of India to meet their short term borrowing requirements. CMB are generally issued for maturities of less than 91 days.

Securities created and issued by the Central and State Governments as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government Securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in coordination with the RBI.

Non-convertible debentures and bonds

Non-convertible debentures as well as bonds are securities issued by companies / institutions promoted / owned by the Central or State Governments and statutory bodies which may or may not carry a Central/State Government guarantee, public and private sector banks, All India Financial Institutions and Private Sector Companies. These instruments may be secured or unsecured against the assets of the Company and generally issued to meet the short term and long term fund requirements. The Scheme may also invest in the non convertible part of convertible debt securities.

Floating rate debt instruments

Floating rate debt instruments are instruments issued by Central / State Governments, corporates, PSUs, etc. with interest rates that are reset periodically.

Debt instruments having Structured Obligations / Credit Enhancements

The investment of the scheme in debt instruments having Structured Obligations / Credit Enhancements shall not exceed 10% of the debt portfolio of the scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the schemes:

a. Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade and
b. Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade.

Securitized Assets

Securitization is a structured finance process which involves pooling and repackaging of cashflow producing financial assets into securities that are then sold to investors. They are termed as Asset Backed Securities (ABS) or Mortgage Backed Securities (MBS). ABS are backed by other assets such as credit card, automobile or consumer loan receivables, retail installment loans or participations in pools of leases. Credit support for these securities may be based on the underlying assets and/or provided through credit enhancements by a third party. MBS is an asset backed security whose cash flows are backed by the principal and interest payments of a set of mortgage loans. Such Mortgage could be either residential or commercial properties. ABS/MBS instrument reflect the undivided interest in the underlying assets and do not represent the obligation of the issuer of ABS/MBS or the originator of underlying receivables. Securitization often utilizes the services of SPV.

Pass through Certificate (PTC)

Pay through or other Participation Certificates represents beneficial interest in an underlying pool of cash flows. These cash flows represent dues against single or multiple loans originated by the sellers of these loans. These loans are given by banks or financial institutions to corporates. PTCs may be backed, but not exclusively, by receivables of personal loans, car loans, two wheeler loans and other assets subject to applicable regulations.

The following are certain additional disclosures w.r.t. investment in securitized debt:

1. How the risk profile of securitized debt fits into the risk appetite of the Scheme

Securitized debt is a form of conversion of normally non-tradable loans to transferable securities. This is done by assigning the loans to a special purpose vehicle (a trust), which in turn issues Pass-Through-Certificates (PTCs). These PTCs are transferable securities with fixed income characteristics. The risk of investing in securitized debt is similar to investing in debt securities. However it differs in two respects.

Typically the liquidity of securitized debt is less than similar debt securities. For certain types of securitized debt (backed by mortgages, personal loans, credit card debt, etc.), there is an additional pre-payment risk. Pre-payment risk refers to the possibility that loans are repaid before they are due, which may reduce returns if the re-investment rates are lower than initially envisaged.

Because of these additional risks, securitized debt typically offers higher yields than debt securities of similar credit rating and maturity. If the fund manager judges that the additional risks are suitably compensated by the higher returns, he may invest in securitized debt up to the limits specified in the asset allocation table above.

2. Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt, etc.

The originator is the person who has initially given the loan. The originator is also usually responsible for servicing the loan (i.e. collecting the interest and principal payments). An analysis of the originator is especially important in case of retail loans as this affects the credit quality and servicing of the PTC. The key risk is that of the underlying assets and not of the originator. For example, losses or performance of earlier issuances does not indicate quality of current series. However, such past performance may be used as a guide to evaluate the loan standards, servicing capability and performance of the originator.

Originators may be: Banks, Non Banking Finance Companies, Housing Finance Companies, etc. The fund manager / credit analyst evaluates originators based on the following parameters

- Track record
- Willingness to pay, through credit enhancement facilities etc.
- Ability to pay
- Business risk assessment, wherein following factors are considered:
  - Outlook for the economy (domestic and global)
  - Outlook for the industry
  - Company specific factors

In addition, a detailed review and assessment of rating rationale is done including interactions with the originator as well as the credit rating agency.

The following additional evaluation parameters are used as applicable for the originator / underlying issuer for pool loan and single loan securitization transactions:

- Default track record/ frequent alteration of redemption conditions / covenants
- High leverage ratios of the ultimate borrower (for single-sell downs) – both on a standalone basis as well on a consolidated level/ group level
- Higher proportion of reschedulement of underlying assets of the pool or loan, as the case may be
- Higher proportion of overdue assets of the pool or the underlying loan, as the case may be
- Poor reputation in market
- Insufficient track record of servicing of the pool or the loan, as the case may be.

3. Risk mitigation strategies for investments with each kind of originator

An analysis of the originator is especially important in case of retail loans as the size and reach affects the credit quality and servicing of the PTC. In addition, the quality of the collection process, infrastructure and follow-up mechanism; quality of MIS; and credit enhancement mechanism are key risk mitigants for the better originators / servicers.

In case of securitization involving single loans or a small pool of loans, the credit risk of the underlying borrower is analyzed. In case of diversified pools of loans, the overall characteristic of the loans is analyzed to determine the credit risk. The credit analyst looks at ageing (i.e. how long the loan has been with the originator before securitization) as one way of evaluating the performance potential of the PTC. Securitization transactions may include some risk mitigants (to reduce credit risk). These may include interest subvention (difference in interest rates on the underlying loans and the PTC serving as margin against defaults), overcollateralization (issue of PTCs of lesser value than the underlying loans, thus even if some loans default, the PTC continues to remain protected), presence of an equity / subordinate tranche (issue of PTCs of differing seniority when it comes to repayment - the senior tranches get paid before the junior tranche) and / or guarantees.

4. The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments

In case of securitization involving single loans or a small pool of loans, the credit risk of the borrower is analyzed. In case of diversified pools of loans, the overall characteristic of the loans is analyzed to determine the credit risk.

The credit analyst looks at ageing (i.e. how long the loan has been with the originator before securitization) as one way of judging the performance potential of the PTC. Additional risk mitigants may include interest subvention, over collateralization, presence of an equity / subordinate tranche and / or guarantees. The credit analyst also uses analyses by credit rating agencies on the risk profile of the securitized debt.

Currently, the following parameters are used while evaluating investment decision relating to a pool securitization transaction. The Investment Committee may revise the parameters from time to time.

Characteristics/Type of Pool	Mortgage Loan	Commercial Vehicle and Construction	CAR	2 wheelers	Micro Finance Pools	Personal Loans	Single Sell Downs	Others
Approximate Average maturity (in Months)	Up to 10 years	Up to 5 years	Up to 5 years	Up to 3 years	Up to 80 weeks	Up to 3 years	Refer Note 1	Refer Note 2
Collateral margin (including cash, guarantees, excess interest spread, subordinate tranche)	>5%	>5%	>4%	>4%	>4%	>4%	"	"
Average Loan to Value Ratio	<90%	<90%	<90%	<90%	Unsecured	Unsecured	"	"
Average seasoning of the Pool	>3 months	>3 months	>3 months	>3 months	>3 months	>3 months	"	"
Maximum single exposure range (%)	<5%	<7%	Retail	Retail	Retail	Retail	"	"
Average single exposure range %	<5%	<5%	Retail	Retail	Retail	Retail	"	"

Note 1: In case of securitization involving single loans or a small pool of loans, the credit risk of the borrower is analyzed. The investment limits applicable to the underlying borrower are applied to the single loan sell-down.

Note 2: Other investments will be decided on a case-to-case basis

The credit analyst may consider the following risk mitigating measures in his analysis of the securitized debt:

- Size of the loan
- Average original maturity of the pool
- Loan to Value Ratio
- Average seasoning of the pool
- Default rate distribution
- Geographical Distribution
- Credit enhancement facility
- Liquid facility
- Structure of the pool

5. Minimum retention period of the debt by originator prior to securitization

Issuance of securitized debt is governed by the Reserve Bank of India. RBI norms cover the "true sale" criteria including credit enhancement and liquidity enhancements. In addition, RBI has proposed minimum holding period of between nine and twelve months for assets before they can be securitized. The minimum holding period depends on the tenor of the securitization transaction. The Scheme will invest in securitized debts that are compliant with the laws and regulations.

6. Minimum retention percentage by originator of debts to be securitized

Issuance of securitized debt is governed by the Reserve Bank of India. RBI norms cover the "true sale" criteria including credit enhancement and liquidity enhancements, including maximum exposure by the originator in the PTCs. In addition, RBI has proposed minimum retention requirement of between five and ten percent of the book value of the loans by the originator. The minimum retention requirement depends on the tenor and structure of the securitization transaction. The Fund will invest in securitized debts that are compliant with the laws and regulations.

7. The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme of the fund

The key risk is securitized debt relates to the underlying borrowers and not the originator. In a securitization transaction, the originator is the seller of the debt(s) and the fund is the buyer. However, the originator is also usually responsible for servicing the loan (i.e. collecting the interest and principal payments). As the originators may also invest in the scheme, the fund manager shall ensure that the investment decision is based on parameters as set by the Investment Review Committee (IRC) of the Asset Management Company and IRC shall review the same at regular interval.

8. The resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt

The fund management team including the credit analyst has the experience to analyze securitized debt. In addition, credit research agencies provide analysis of individual instruments and pools. On an on-going basis (typically monthly) the servicer provides reports regarding the performance of the pool. These reports would form the base for ongoing evaluation where applicable. In addition, rating reports indicating rating changes would be monitored for changes in rating agency opinion of the credit risk.

As per the prevailing SEBI guidelines, the investments in securitised debt instruments will be shown as a separate category under debt instruments in the half yearly disclosure of scheme portfolio.

Units issued by REITs and InvITs

REIT/ InvITs is a trust which holds real estate or infrastructure assets respectively which is managed by an investment manager. The unitholders in the trust have proportional interest in the underlying holdings of the trust.

Repo in Corporate debt securities

The schemes shall participate in corporate bond repo transactions with counterparties having a minimum investment grade rating and is approved by the Investment Committee on a case-to-case basis. In case there is no rating available, the Investment Committee will decide the rating of the counterparty, and report the same to the Board from time to time. All entities eligible for transacting in corporate bond repos as defined by SEBI and RBI shall be considered for repo transactions.

Tri-party Repo (TREPS) through CCIL

Trading in the triparty repo is conducted over the Triparty Repo (Dealing) System (TREPS) a screen based anonymous order matching system that is provided to the members of CCIL's securities segment and Triparty Repo (Dealing) Segment of CCDS. TREPS receives borrowing limits and initial margin details from CCIL for each member based on cash and/or government securities contributions by respective member. Once the orders are matched and the trade is concluded, the first leg consideration is determined by the system based on the tenor and the repo interest rate of the trade. Members can square off the trades or re-repo (i.e. lend trade can be squared off by borrow trades and vice a versa) wherein the second leg settlement date of the squaring off trade is the same business date as the second leg settlement date of original trade. TREPS trades are settled through CCIL's Securities Segment.

Investments in the Schemes of Mutual Funds:

For the purpose of further diversification and liquidity, the Scheme may invest in another scheme managed by the same AMC or by the AMC of any other Mutual Fund without charging any fees on such investments, provided it is in conformity with the investment objectives of the Scheme and in terms of the prevailing SEBI Regulations. Further provided that, the aggregate inter-scheme investment made by all schemes managed by the same AMC or in schemes managed by the AMC of any other Mutual Fund shall not exceed 5% of the net asset value of the Mutual Fund.

Short Term Deposits

Pending deployment of funds as per the investment objective of the Scheme, the funds may be parked in short term deposits of the Scheduled Commercial Banks, subject to guidelines and limits specified by SEBI.

The Fund Manager may invest in such any other security as may be permitted by RBI / SEBI from time to time and which are in line with the investment objectives of the Scheme.

B. WHAT ARE THE INVESTMENT RESTRICTIONS ?

Pursuant to Regulations, specifically the Seventh Schedule and amendments thereto, the following investment restrictions are currently applicable to the Scheme:

1. The Scheme shall not invest more than 10 per cent of its NAV in the equity shares or equity related instruments of any company.

2. No sponsor of a mutual fund, its associate or group company including the asset management company of the fund, through the schemes of the mutual fund or otherwise, individually or collectively, directly or indirectly, have –
   - 10% or more of the shareholding or voting rights in the asset management company or the trustee company of any other mutual fund; or
   - representation on the board of the asset management company or the trustee company of any other mutual fund.

3. All investments by the Scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.

4. The Mutual Fund under all its Scheme(s) shall not own more than ten per cent of any company's paid-up capital carrying voting rights.

   Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.

5. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer, which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the SEBI Act, 1992. Such investment limit may be extended to 12% of the NAV of the Scheme with the prior approval of the Trustee and the Board of Directors of AMC. Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and TREPS. Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with SEBI.

   Further, in accordance with the clause 12.8 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, as amended from time to time, the scheme shall not invest more than:

   a. 10% of its NAV in debt and money market securities rated AAA; or
   b. 8% of its NAV in debt and money market securities rated AA; or
   c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation.

The long term rating of issuers shall be considered for the money market instruments. However, if there is no long term rating available for the same issuer, then based on credit rating mapping of CRAs between short term and long term ratings, the most conservative long term rating shall be taken for a given short term rating. Exposure to government money market instruments such as TREPS on G-Sec/ T-bills shall be treated as exposure to government securities.

6. The Scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities, money market instruments and derivative products such as Interest Rate Swaps, Interest Rate Futures, etc. which are used by mutual fund for hedging.

   Provided further that the Scheme shall comply with the norms under this clause within the time and in the manner as may be specified by the Board:

   Provided further that the norms for investments by the Scheme in unrated debt instruments shall be as specified by the Board from time to time. Further the investments by the Scheme shall be in compliance with SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 and as amended by SEBI from time to time.

7. The Scheme may invest in other schemes of the Mutual Fund or any other mutual fund without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Fund.

8. The Scheme shall not make any investment in:

   a) any unlisted security of an associate or group company of the sponsor; or`
   b) any security issued by way of private placement by an associate or group company of the sponsor; or
   c) the listed securities of group companies of the sponsor which is in excess of 25% of the net assets.

9. The Mutual Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned Scheme, wherever investments are intended to be of a long-term nature.

10. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:

    a) such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and

    b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

    Further, the inter scheme transfer of securities would be done either for meeting liquidity requirements in a scheme in case of unanticipated redemption pressure or to facilitate duration, issuer, sector or group rebalancing in line with SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

11. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities. Provided that the Mutual Fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI. Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

12. The Scheme shall not make any investment in any fund of funds scheme.

13. Save as otherwise expressly provided under the Regulations, the Scheme shall not advance any loans for any purpose.

14. The Scheme shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/redemption of Units or payment of interest to the Unit holder. Provided the scheme shall not borrow more than 20% of the net assets of the Scheme and the duration of the borrowing shall not exceed a period of 6 months.

15. The Mutual Fund may invest in the units of REITs and InvITs subject to the following:
    (a) The Mutual Fund under all its schemes shall not own more than 10% of units issued by a single issuer of REIT and InvIT; and
    (b) The Scheme shall not invest –
        i. more than 10% of its NAV in the units of REIT and InvIT; and
        ii. more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer.

16. The Scheme shall participate in Repo in corporate debt securities in accordance with SEBI Master Circular dated June 27, 2024 and such other directions issued by RBI and SEBI from time to time.

    (i) The Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net asset of the scheme.
    (ii) The cumulative gross exposure through equity, debt, derivative positions, foreign securities, units issued by REITs & InvITs, repo transactions in corporate debt securities and such other securities/assets as may be permitted by the Board from time to time shall not exceed 100% of the net assets of the Scheme in accordance with SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.
    (iii) The Scheme shall participate in repo transactions only in AA and above rated corporate debt securities.
    (iv) In terms of Regulation 44 (2) of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, the Scheme shall borrow through repo transactions only if the tenor of the transaction does not exceed a period of six months.
    (v) The Scheme shall ensure compliance with the Seventh Schedule of the Mutual Funds Regulations about restrictions on investments, wherever applicable, with respect to repo transactions in corporate debt securities.
    (vi) The scheme shall participate Repo in corporate debt securities in accordance with directions issued by RBI and SEBI from time to time and in accordance with the Policy framed by the Board of Directors of Samco Asset Private Limited and Samco Trustee Private Limited in this regard.

17. Pending deployment of the funds of the Scheme in securities in terms of the investment objective of the Scheme, the Mutual Fund may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the following guidelines issued by SEBI vide its Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 as may be amended from time to time:

    (i) "Short Term" for such parking of funds by the Scheme shall be treated as a period not exceeding 91 days. Such short-term deposits shall be held in the name of the Scheme.
    (ii) The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
    (iii) Parking of funds in short term deposits of associate and sponsors scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
    (iv) The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
    (v) The Scheme shall not park funds in short term deposit of a bank which has invested in that Scheme. Further, the Trustees/AMC shall also ensure that the bank in which a scheme has short term deposit

do not invest in the said scheme, until the scheme has short term deposit with such bank.

(vi) The above norms do not apply to term deposits placed as margins for trading in cash and derivatives market.

(vii) The AMC shall not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

18. The Scheme shall participate in Repo in corporate debt securities in accordance with SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 and such other directions issued by RBI and SEBI from time to time.

(i) The Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net asset of the scheme.

(ii) The cumulative gross exposure through equity, debt, derivative positions, foreign securities, units issued by REITs & InvITs, repo transactions in corporate debt securities and such other securities/assets as may be permitted by the Board from time to time shall not exceed 100% of the net assets of the Scheme in accordance with SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

(iii) The Scheme shall participate in repo transactions only in AA and above rated corporate debt securities.

(iv) In terms of Regulation 44 (2) of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, the Scheme shall borrow through repo transactions only if the tenor of the transaction does not exceed a period of six months.

(v) The Scheme shall ensure compliance with the Seventh Schedule of the Mutual Funds Regulations about restrictions on investments, wherever applicable, with respect to repo transactions in corporate debt securities.

(vi) The scheme shall participate Repo in corporate debt securities in accordance with directions issued by RBI and SEBI from time to time and in accordance with the Policy framed by the Board of Directors of Samco Asset Private Limited and Samco Trustee Private Limited in this regard.

19. **Restrictions on Investment in debt instruments having Structured Obligations / Credit Enhancements:**

Investment of the scheme in the following instruments shall not exceed 10% of the debt portfolio of the scheme and the Group exposure in such instruments shall not exceed 5% of the debt portfolio of the scheme:

a) Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade.; and

b) Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade. For this purpose, a group means a Group as defined under regulation 2 (mm) of SEBI (Mutual Funds) Regulations, 1996 (Regulations) and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.

These investment limits mentioned above shall not be applicable on investments in securitized debt instruments, as defined in SEBI (Public Offer and Listing of Securitized Debt Instruments) Regulations 2008.

Investment in debt instruments, having credit enhancements backed by equity shares directly or indirectly, shall have a minimum cover of 4 times considering the market value of such shares. AMC may ensure that the investment in debt instruments having credit enhancements are sufficiently covered to address the market volatility and reduce the inefficiencies of invoking of the pledge or cover, whenever required, without impacting the interest of the investors. In case of fall in the value of the cover below the specified limit, AMC shall initiate necessary steps to ensure protection of the interest of the investors.

20. **Limitations and restrictions for investments in derivative instruments**

All derivative position taken in the portfolio would be guided by the following principles

i. Position limit for the Mutual Fund in index options contracts

a. The Mutual Fund position limit in all index options contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
b. This limit would be applicable on open positions in all options contracts on a particular underlying index.

ii. Position limit for the Mutual Fund in index futures contracts

a. The Mutual Fund position limit in all index futures contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
b. This limit would be applicable on open positions in all futures contracts on a particular underlying index.

iii. Additional position limit for hedging

In addition to the position limits at point (i) and (ii) above, the Mutual Fund may take exposure in equity index derivatives subject to the following limits:

a. Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
b. Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

iv. Position limit for Mutual Fund for stock based derivative contracts

The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).

v. Position limit for each scheme of a Mutual Fund for stock based derivative contracts

The position limits for the Scheme and disclosure requirements are as follows:

a. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a mutual fund shall not exceed the higher of 1% of the free float market capitalisation (in terms of number of shares) or 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).
b. This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
c. For index based contracts, Mutual Funds shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

Exposure limits for the Scheme

In accordance with SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the following exposure limits for investment in derivatives will be applicable to the Scheme:

I. The cumulative gross exposure through equity, debt, derivative positions, foreign securities, units issued by REITs & InvITs, repo transactions in corporate debt securities and such other securities/assets as may be permitted by the Board from time to time shall not exceed 100% of the net assets of the Scheme in accordance with SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.
II. The Scheme shall not write options or purchase instruments with embedded written options except call options under a covered call strategy.
III. The total exposure related to option premium paid shall not exceed 20% of the net assets of the Scheme.

IV. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:

a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
b. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions have to be added and treated under limits mentioned in point 1 above.
c. Any derivative instrument used to hedge shall have the same underlying security as the existing position being hedged.
d. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.

V. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated as exposure for the limit mentioned in point 1 above.

VI. Definition of Exposure in case of Derivative Positions:

Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts

21. The Scheme may write call options only under a covered call strategy for constituent stocks of NIFTY 50 and BSE SENSEX subject to the following:

(i) The total notional value (taking into account strike price as well as premium value) of call options written by scheme shall not exceed 15% of total market value of equity shares held in that scheme.
(ii) The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the scheme. The unencumbered shares in a scheme shall mean shares that are not part of Securities Lending and Borrowing Mechanism (SLBM), margin or any other kind of encumbrances.
(iii) At all points of time the Mutual Fund scheme shall comply with the provisions at paragraph (i) and (ii) above. In case of any passive breach of the requirement at paragraph (i), the respective scheme shall have 7 trading days to rebalance the portfolio. During the rebalancing period, no additional call options can be written in the said scheme.
(iv) In case the Scheme needs to sell securities on which a call option is written under a covered call strategy, it must ensure compliance with paragraphs (i) and (ii) above while selling the securities.
(v) In no case, the scheme shall write a call option without holding the underlying equity shares. A call option can be written only on shares which are not hedged using other derivative contracts.
(vi) The premium received shall be within the requirements prescribed in SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, i.e. the total gross exposure related to option premium paid and received must not exceed 20% of the net assets of the Scheme.

The exposure on account of the call option written under the covered call strategy shall not be considered as exposure of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.
The Scheme will comply with the other Regulations applicable to the investments of Mutual Funds from time to time.

Apart from the Investment Restrictions prescribed under the Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities.

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

All the investment restrictions will be applicable at the time of making investments. Changes do not have to be effected merely because of appreciations or depreciations in value of the investments, or by reason of receipt of any rights, bonuses or benefits in the nature of capital or of any schemes of arrangement or of amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund resulting in any of the above limits getting breached. However, the AMC shall take appropriate corrective action as soon as possible taking into account the interests of the Unit holders.

C. FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the Scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) Type of a Scheme:

An open ended equity scheme predominantly investing in large cap and mid cap stocks

(ii) Investment Objective:

- **Investment Objective** –The investment objective of the Scheme is to generate long-term capital appreciation from a diversified portfolio of predominantly Large Cap and Mid Cap equity and equity-related securities. There is no assurance that the investment objective of the Scheme will be achieved.
- **Investment pattern** - Please refer to the section “How will the scheme allocate its assets?”. The fund retains the option to alter the asset allocation on a short-term basis in the interest of unitholders on defensive considerations.

(iii) Terms of Issue

- **Liquidity provisions such as listing, repurchase, redemption** - Please refer to the Part I
- **Aggregate fees and expenses charged to the scheme**: Please refer to the section Part II Other details
- **Any safety net or guarantee provided**: This scheme is not a guaranteed or an assured return scheme.

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations and SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the Trustee shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unit holders is carried out unless:

- SEBI has reviewed and provided its comments on the proposal
- A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- The Unitholders are given an option for a period of atleast 30 calendar days to exit at the prevailing Net Asset Value without any exit load.

D. OTHER SCHEME SPECIFIC DISCLOSURES:

Listing and transfer of units	The Scheme is an open-ended equity Scheme under which Sale and Repurchase will be made on a continuous basis and therefore listing on stock exchanges is not envisaged. The Trustee/AMC may at its discretion list the units on any Stock Exchange. The Unit holders are given an option to hold the Units by way of an Account Statement (physical form) or in Dematerialized (demat form). Units held in Demat form are transferable (subject to lock-in period, if any and subject to lien, if any marked on the units) in accordance with the provisions of SEBI (Depositories and Participants) Regulations, 1996, as may be amended from time to time. Transfer can be made only in favor of transferees who are capable of holding Units and having a Demat Account. The delivery instructions for transfer of Units will have to be lodged with the DP in requisite form as may be required from time to time and transfer will be effected in accordance with such rules / regulations as may be in force governing transfer of securities in dematerialized mode. Further, for the procedure of release of lien, the investors shall contact their respective DP. Pursuant to AMFI Best Practice Guideline No. 135/ BP/116/ 2024-25 dated August 14, 2024, the facility for transfer of units held in non-demat (SoA) mode shall be available to individual unitholders falling under the following three categories: a) Surviving joint unitholder, who wants to add new joint holder(s) in the folio upon demise of one or more joint unitholder(s). b) A nominee of a deceased unitholder, who wants to transfer the units to the legal heirs of the deceased unitholder, post the transmission of units in the name of the nominee. c) A minor unitholder who has turned a major and has changed his/her status from minor to major, wants to add the name of the parent / guardian, sibling, spouse etc. in the folio as joint holder(s). For detailed process/guidelines for transfer of units held in non-demat (SoA) mode, kindly refer SAI.
Dematerialization of units	The Unit holders are given an option to hold the Units in physical form (by way of an account statement) or in dematerialized form (Demat). Each Option under each Plan held in the dematerialised form shall be identified on the basis of an International Securities Identification Number (ISIN) allotted by National Securities Depositories Limited (NSDL) and Central Depository Services Limited (CDSL). The ISIN No. details of the respective option under the respective Plan can be obtained from your Depository Participant (DP) or the investors can access the website link www.nsdl.co.in or www.cdslindia.com.The holding of units in the dematerialised mode would be subject to the guidelines/procedural requirements as laid by the Depositories viz. NSDL/CDSL from time to time. **Subscription of units under Dematerialised Mode & allotment thereof:** The Applicants intending to hold the Units in dematerialised mode will be required to have a beneficiary account with a DP of the NSDL/CDSL and will be required to mention the DP's Name, DP ID No. and Beneficiary Account No. with the DP in the application form at the time of subscription/ additional purchase of the Units of the Scheme/Plan/Option. The applicant shall mandatorily attach a self-attested copy of the latest demat account statement/client master statement along with the application forms at the time of initial subscription. The application for subscription

	would be liable to be rejected by the AMC/ Registrar under the following conditions: a. In case the applicants do not provide their Demat Account details in the application form; or b. The demat details provided in the application form are incomplete / incorrect or do not exactly match with the details in the Depository records; and/or c. The mode of holding in the application form does not match exactly with that of the demat mode of holding. Applicants intending to hold units in the dematerialised mode would be considered to be KYC compliant as per the DP records and no separate KYC acknowledgment proof needs to be submitted to the AMC/Registrar. However, the submission of KYC acknowledgement proof is optional. It may be noted that in case the application stands rejected due to any of the above reasons, the AMC/ Registrar shall refund the amount to the applicants in line with the provisions of the SID. However, if the applicant has submitted the KYC acknowledgment proof along with the application forms, the units will be allotted in the physical mode 'by default' (without any separate intimation to such applicant) and an Account Statement shall be sent to the Unit holders in accordance with the provisions of the SID. It may be further noted that for any such default allotment the "Source Bank Account" (as per the payment instrument submitted along with the application form) shall be considered as the bank mandate for all purposes. NOTE: It may be noted that the facilities viz. Switch in and out, Systematic Withdrawal Plan (SWP) / Systematic Transfer Plan (STP), are currently not available in the dematerialised mode. It may also be noted that units in the demat mode shall only be credited in the DP account on the basis of realization of funds. Note:
	It is further clarified that the demat mode of holding is subject to the following: a. Mandatory Submission of the PAN details along with the necessary proofs in accordance with the provisions of the SAI; b. Provisions of "Non-Acceptance of Third Party Payment Instruments for subscription/investments of units" under the section "How to Apply" in the SAI. c. Submission of such other mandatory authority documents as may be specified in the application forms for individual/non-individual category of investors; d. All communications under demat mode of holding shall be on the basis of DP ID and client ID submitted in the application form and no separate folio shall be created for the same. For further details on dematerialised mode of holding Units, investors are requested to refer to the SAI.
Minimum Target Amount (This is the minimum amount required to operate the scheme and if this is not collected during the NFO period, then all the investors would be refunded the amount invested without any return.)	₹ 10 crores In the event this amount is not raised during the NFO period, the amount collected under the Schemes will be refunded to the applicants as mentioned in the section, '**Refund**'.

Maximum Amount to be raised (if any)	There will be no upper limit on the total amount collected under the Scheme during the NFO Period.
IDCW Policy	N.A.
Allotment	Subject to the Scheme receiving the minimum subscription, full allotment will be made to all valid applications received during the New Fund Offer (NFO). Allotment of Units on Application shall be made in the following manner: a) An Account Statement containing the number of Units allotted will be issued within 5 Business Days from the closure of the NFO. The Units allotted in electronic form will be credited to the investor's Beneficiary Account with a Depository Participant (DP) of CDSL or NSDL as per the details furnished by the investor in the Application Form within 5 Business Days from the closure of the NFO and an intimation / allotment advice specifying the number of units allotted to the investor. The Account Statement of the Beneficiary Account with the DP will be sent by the respective DP's as per their service standards. b) Refund of subscription money to applicants, in case applications are invalid or rejected will be made within 5 Business Days from the closure of the NFO without any return. No interest will be payable on any subscription money so refunded. If the Mutual Fund refunds the amount after 5 Business Days from the closure of the NFO, interest at the rate as may be prescribed by SEBI (presently 15% p.a.) shall be paid out of the assets of the AMC for the period thereafter. Refund orders will be marked "A/c Payee only" and drawn in the name of the applicant in the case of a sole applicant and in the name of the first applicant in all other cases. c) For applicants applying through the ASBA mode, on allotment, the amount will be unblocked in their respective bank accounts and account will be debited only to the extent required to pay for allotment of Units applied in the application form.
Refund	The AMC will refund the application money to applicants whose applications are found to be incomplete, invalid or have been rejected for any other reason whatsoever. The Refund proceeds will be paid by way of NEFT / RTGS / Direct credits/ IMPS / any other electronic manner if sufficient banking details are available with the Mutual Fund for the Unit holder or else through dispatch of Refund instruments within 5 business days of the closure of NFO period. In the event of delay beyond 5 business days, the AMC shall be liable to pay interest at 15% per annum or such other rate of interest as maybe prescribed from time to time. Refund orders will be marked "A/c Payee only" and drawn in the name of the applicant (in the case of a sole applicant) and in the name of the first applicant in all other cases, or by any other mode of payment as authorised by the applicant. All refund orders will be sent by registered post or as permitted by Regulations.

The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same	Not Applicable
Restrictions, if any, on the right to freely retain or dispose of units being offered	**Suspension of sale of units** With the approval of the Boards of Directors of the Trustee and the Asset Management Company, the sale of Units may be suspended temporarily or indefinitely when any of the following conditions exist: 1. The equity / debt market stops functioning or trading is restricted. 2. Periods of extreme volatility in the equity / debt market, which, in the opinion of the Investment Manager, is prejudicial to the interest of the investors. 3. When there is a strike by the banking community or trading is restricted by RBI or other authority. 4. Period of extreme volatility in the equity / debt / money market, which in the opinion of the Board of Directors of AMC and Trustee is prejudicial to the interest of the scheme's investors. 5. As and when directed by the Government of India or RBI or SEBI to do so or conditions relating to natural calamity/external aggression/internal disturbances etc. arises, so as to cause volatile movements in the money or debt market, which in the opinion of the AMC, will be prejudicial to the interest of the unitholders, if further trading in the scheme is continued. 6. Break down in the information processing/communication systems affecting the valuation of investments/processing of sale/repurchase request. 7. Natural calamity. 8. SEBI, by order, so directs. 9. Trustee views that increasing the Scheme's size further may prove detrimental to the existing/prospective Unitholders of the Scheme. 10. Any other circumstances which in the opinion of the Board of Directors of AMC and Trustee is prejudicial to the interest of the existing/prospective investors. **Suspension of redemption of units**

	With the approval of the Boards of Directors of the Trustee and the Asset Management Company, the redemption of Units may be suspended temporarily when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as: **i. Liquidity issues** - when market at large becomes illiquid affecting almost all securities rather than any issuer specific security. Further, restriction on redemption due to illiquidity of a specific security in the portfolio of a scheme due to a poor investment decision, shall not be allowed. **ii. Market failures, exchange closures** - when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies. **iii. Operational issues** – when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out). Such cases can only be considered if they are reasonably unpredictable and occur in spite of appropriate diligence of third parties, adequate and effective disaster recovery procedures and systems. iv. Based on any other guidance/ circular issued by SEBI from time to time. Restriction on redemption may be imposed for a specified period of time not exceeding 10 working days in any 90 days period. The approval from the Boards of AMC / Trustee shall also be informed to SEBI in advance. **When restriction on redemption is imposed, the following procedure shall be applied:** i. No redemption requests upto Rs. 2 lakh shall be subject to such restriction. ii. Where redemption requests are above Rs. 2 lakh, AMC shall redeem the first Rs. 2 lakh without such restriction and remaining part over and above Rs. 2 lakh shall be subject to such restriction.
	Any Units which, by virtue of these limitations, are not redeemed on a particular Business Day will be carried forward for redemption on the next following Business Day in order of receipt. Redemptions carried forward will be made at the NAV in effect on the subsequent Business Day(s) on which the condition for redemption request is fulfilled. To the extent multiple redemptions are being satisfied in a single day under these circumstances, such payments will be made pro-rata based on the size of each redemption request. Under such circumstances, redemption cheques may be mailed out to investors within a reasonable period of time and will not be subject to the normal response time for redemption cheque mailing. In case where more than one application is received for redemption in a scheme for an aggregate redemption amount equal to or more than Rs.2 lakhs on any Business Day across all plans/options of the relevant scheme, then such applications shall be aggregated at the investor level (same holders/joint holders identified by their Permanent Account Numbers (PAN) in the same sequence). Such aggregation shall be done irrespective of the number of folios under which the investor is redeeming and irrespective of mode, location and time of application.
Cut off timing for subscriptions/ redemptions/ switches This is the time before which your application (complete in all	**Subscriptions/Purchases including Switch – ins:** The following cut-off timings shall be observed by the Mutual Fund in respect of purchase of units of the Scheme and the following NAVs shall be applied for such purchase:

In case the bank account details are not mentioned or found to be incomplete or invalid in a sub-scription application, then the AMC may consider the account details as appearing in the investment amount cheque and the same shall be updated under the folio as the payout bank account for the payment of redemption/IDCW amount etc. The aforementioned updation of bank account shall however be subject to compliance with the third party investment guidelines issued by Association of Mutual Funds in India (AMFI) from time to time. The AMC reserves the right to call for any additional documents as may be required, for pro-cessing of such transactions with missing/incomplete/invalid bank account details. The AMC al-so reserves the right to reject such applications.
Delay in payment of redemption / repurchase proceeds	The AMC shall be liable to pay interest to the Unit holders at 15% or such other rate as may be prescribed by SEBI from time to time, in case the Redemption / Repurchase proceeds are not made within 3 Business Days of the date of Redemption / Repurchase. As per AMFI circular no. AMFI/35P/MEM-COR/74/2022-23 dated January 16, 2023, in case of exceptional situations the AMC might follow the additional timelines for making redemption payments. For further information, please refer to the SAI. If the Unit holder fails to provide the Bank mandate, the request for redemption would be considered as not valid and the Fund retains the right to reject/withhold the redemption until a proper bank mandate is furnished by the Unitholder and the provision with respect of penal interest in such cases will not be applicable/ entertained. The mode of payment may be direct credit/ECS/cheque, or any other mode as may be decided by AMC in the interest of investors. If the investor(s)/unitholder(s) submit(s) redemption request accompanied with request for change of Bank mandate or submits a redemption request within 7 days from the date submission of a request for change of Bank mandate details, the Asset Management Company will process the redemption but the release of redemption proceeds shall be deferred on account of additional verification, but will be within the regulatory limits as specified by Securities and Exchange Board of India time to time.
Unclaimed Redemptions	As per clause 14.3 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the unclaimed redemption shall be deployed by the Fund in call money market or money market instruments or in a separate plan of Overnight Fund / Liquid scheme / Money Market Mutual

	Fund scheme floated by Mutual Funds specifically for deployment of the unclaimed amounts. Provided that such schemes where the unclaimed redemption are deployed shall be only those Overnight scheme/ Liquid scheme / Money Market Mutual Fund schemes which are placed in A-1 cell (Relatively Low Interest Rate Risk and Relatively Low Credit Risk) of Potential Risk Class matrix as per clause 17.5 of SEBI Master Circular for Mutual Funds dated June 27, 2024. There shall be no exit load in this plan, and TER (Total Expense Ratio) of such plan shall be capped as per the TER of direct plan of such scheme or at 50bps whichever is lower. Investors claiming these amounts during a period of three years from the due date shall be paid initial unclaimed amount along-with the income earned on its deployment. Investors, who claim these amounts after 3 years, shall be paid initial unclaimed amount along-with the income earned on its deployment till the end of the third year. After the third year, the income earned on such unclaimed amounts shall be used for the purpose of investor education. The AMC shall make a continuous effort to remind investors through letters to take their unclaimed amounts. **Mutual Fund Investment Tracing and Retrieval Assistant** SEBI, vide its circular no. SEBI/HO/IMD/IMD-SEC-3/P/CIR/2025/15 dated February 12, 2025, has introduced a service platform Mutual Fund Investment Tracing and Retrieval Assistant (MITRA) designed to help investors trace inactive and unclaimed Mutual Fund folios. MITRA platform provides a centralized, industry-wide searchable database, enabling investors to identify overlooked investments or those made by others for which they may be rightful legal claimants. The platform also encourages investors to complete their KYC as per current norms, thereby reducing the number of non-KYC-compliant folios and ultimately leading to a decline in unclaimed Mutual Fund folios. An inactive folio is defined as a Mutual Fund folio where no investor-initiated transactions (financial or non-financial) have taken place in the last 10 years, but unit balances remain available. These may include folios where investors have either consciously chosen to remain invested in an open-ended scheme or have lost track of their investments. There is no adverse consequence for folios appearing on the platform if the investor is aware of their holdings and has intentionally remained invested. The primary objective of MITRA is to assist investors in retrieving forgotten Mutual Fund investments and ensuring their KYC compliance. The MITRA platform will be jointly hosted by the two Qualified RTAs (QRTAs)—Computer Age Management Services Limited (CAMS) and KFIN Technologies Limited—acting as agents for Asset Management Companies (AMCs). It will be accessible via a link on the websites of MF Central, AMCs, AMFI, the two QRTAs, and SEBI, ensuring widespread availability and ease of access for investors.
Disclosure w.r.t investment by minors	In case of investments held in the name of a minor, no joint holders will be registered. The minor, acting through the guardian, should be the first and sole holder in the Folio/Account. The guardian should be either the parent (i.e. father or mother) or the court appointed legal guardian. The guardian of the minor may need to submit such declarations and/or other documents/information as a proof of guardianship, as may be prescribed by the AMC from time to time. Date of birth of the minor along with photocopies of the supporting documents (viz. birth certificate, school leaving certificate/ Mark sheet issued by Higher Secondary Board of respective states, ICSE, CBSE etc., or, passport or any other document evidencing the date of birth of the minor) should be mandatorily provided while opening the account. Payment for investment by any mode shall be accepted from the bank

	account of the minor, parent or legal guardian of the minor, or from a joint account of the minor with parent or legal guardian. Irrespective of the source of payment for subscription, all redemption proceeds shall be credited only in the verified bank account of the minor, i.e. the account the minor may hold with the parent/ legal guardian after completing all KYC formalities. Upon attainment of majority by the minor, the account should be regularised forthwith, the minor in whose name the investment was made, shall be required to provide all the KYC details, updated bank account details including cancelled original cheque leaf of the new account. No further transactions shall be allowed till the status of the minor is changed to major. The AMC may specify such procedures for regularisation of the Folio, as may be deemed appropriate from time to time. Post attainment of majority by the minor, the Mutual Fund/AMC will not be obliged to accept any instruction or transaction application made under the signature of the guardian. In case of an application for registration of a systematic transaction facility (Systematic Investment Plan / Systematic Transfer Plan / Systematic Withdrawal Plan or Transfer of Income Distribution cum capital withdrawal), if the end date of the facility extends beyond the date of attainment of majority by the minor, such facility will be registered only up to the date of attaining majority.
Risk-o-meter	AMC shall disclose risk-o-meter of the scheme and benchmark while disclosing the performance of scheme vis-à-vis benchmark and shall send the details of the scheme portfolio while communicating the monthly and half-yearly statement of scheme portfolio by email. Any change in risk-o-meter shall be communicated by way of addendum and by way of an e-mail or SMS to unitholders of the scheme. Risk-o-meter shall be evaluated on a monthly basis and AMC shall disclose the Risk-o-meter along with portfolio disclosure for the scheme on the AMC website at link: https://www.samcomf.com/StatutoryDisclosure and that of AMFI (www.amfiindia.com) within 10 days from the close of each month.
Scheme Summary Document	The AMC will provide on its website a standalone scheme document for all the Schemes which contains all the details of the Scheme including but not limited to Scheme features, Fund Manager details, investment details, investment objective, expense ratios, portfolio details, etc. Scheme summary document will be uploaded on the websites of AMC, AMFI and stock exchanges in 3 data formats i.e. PDF, Spreadsheet and a machine readable format).
Minimum balance to be maintained and consequences of non maintenance	There is no minimum balance to be maintained in the scheme and accordingly there are no consequences on the investors for failure to maintain minimum balance in the scheme.
Nomination for Mutual Fund Unit Holders	Pursuant to clause 17.16 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, Investors subscribing to mutual fund units shall have choice of providing nomination as per the prescribed format or opting out of nomination through a signed declaration. The folios of all existing individual unitholders holding units solely or joint mode that have not complied with the above requirement were supposed to be frozen for debits with effect from June 30, 2024. However, pursuant to SEBI Circular No. SEBI/HO/MIRSD/POD-1/P/CIR/2024/81 dated June 10, 2024, non-submission of 'choice of nomination' shall not result in freezing of mutual fund folios. All new investors/unitholders shall continue to be required to mandatorily provide the 'Choice of Nomination' for Mutual Fund Folios (except for jointly held Mutual Fund Folios). AMC shall provide an option to the unit holder(s) to submit either the nomination form or the declaration form for opting out of nomination in

SEBI vide its email dated May 14, 2024, has reviewed the status of validation of KYC records by KRAs and decided the following: 1. NRI's provisions with respect to portability of KYC Records have been relaxed for one year i.e. till April 30, 2025. 2. Transaction Validation by either one of the attributes namely Mobile or Email is considered valid for transaction of all investors (including NRIs). 3. The existing clients, as on March 31, 2024, in whose respect KYC attributes cannot be verified by the KRAs shall be allowed to exit (sale / redemption, etc.) from existing investment in securities market subject to adequate due diligence by intermediaries. As per SEBI Circular No. SEBI/HO/MIRSD/SECFATF/P/CIR/2024/41 dated May 14, 2024, records of Investors whose attributes are verified by KRAs with official database and PAN-AADHAAR linkages are verified shall be considered as Validated Records.
Any other disclosure in terms of Consolidated Checklist on Standard Observations	**Requirement of minimum investors in the scheme** The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. However, if such limit is breached during the NFO of the Scheme, the Fund will endeavor to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by

	the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard. **Special Considerations** • Prospective investors should study this Scheme Information Document and Statement of Additional Information carefully in its entirety and should not construe the contents hereof as advise relating to legal, taxation, financial, investment or any other matters and are advised to consult their legal, tax, financial and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/ redeem/hold Units. • The Scheme related documents i.e. SID/ KIM/ SAI or the units of the Fund are not registered in any jurisdiction including the United States of America nor in any provincial/ territorial jurisdiction in Canada. • The distribution of the Scheme related document in certain jurisdictions may be restricted or subject to registration requirements and, accordingly, persons who come into possession of the Scheme related documents are required to inform themselves about, and to observe any such restrictions. No persons receiving a copy of this Scheme related documents or any accompanying application form in such jurisdiction may treat these Scheme related documents or such application form as constituting an invitation to them to subscribe for units, nor should they in any event use any such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used without compliance with any registration or other legal requirements. Accordingly, the Scheme related documents do not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation as per applicable law. The AMC, Trustee or the Mutual Fund have not authorized any person to issue any advertisement or to give any information or to make any representations, either oral or written, other than that contained in this Scheme Information Document or the Statement of Additional Information or as is provided by the AMC in connection with this offering. Prospective investors are advised not to rely upon any information or representation not incorporated in the Scheme Information Document or Statement of Additional Information or provided by the AMC as having been authorized by the Mutual Fund, the AMC or the Trustee. • Redemption due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise due to such redemptions. • The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in Statement of Additional Information. • The Mutual Fund may disclose details of the investor's account and transactions thereunder to those intermediaries whose stamp appears on

	the application form or who have been designated as such by the investor. In addition, the Mutual Fund may disclose such details to the bankers, as may be necessary for the purpose of effecting payments to the investor. The Fund may also disclose such details to regulatory and statutory authorities/bodies as may be required or necessary. • In case the AMC or its Sponsor or its Shareholders or their affiliates/associates or group companies make substantial investment, either directly or indirectly in the Scheme redemption of Units by these entities may have an adverse impact on the performance of the Scheme. This may also affect the ability of the other Unit holders to redeem their Units. • As the liquidity of the Scheme investments may sometimes be restricted by trading volumes and settlement periods, the time taken by the Fund for Redemption of Units may be significant in the event of an inordinately large number of Redemption Requests or of a restructuring of the Scheme portfolio. In view of this, the AMC / Trustee has the right to limit redemptions under certain circumstances - please refer to the paragraph "Suspension/Restriction on Redemption of Units of the Scheme". • The AMC and/ or its Registrars & Transfer Agent (RTA) reserve the right to disclose/share Unit holder's details of folio(s) and transaction details thereunder with the following third parties: a) RTA, Banks and/ or authorised external third parties who are involved in transaction processing, dispatching etc., of the Unit-holder's investment in the Scheme; b) Distributors or sub-brokers through whom the applications are received for the Scheme c) Any other organizations for compliance with any legal or regulatory requirements or to verify the identity of the Unit-holders for complying with anti-money laundering requirements. • The Trustee / AMC may at its sole discretion (and without being responsible and / or liable in any manner whatsoever) freeze/ seize / do such acts to a Unit holder's account as per instructions (or deal with the same in the manner the Trustee / AMC is directed and / or ordered) under the Scheme: i) Under any requirement of any law or regulations for the time being in force; and or ii) Under the direction and / or order (including interim orders) of any regulatory/statutory authority or any judicial authority or any quasi-judicial authority or such other competent authority having the powers to give direction and / or order. Further, pursuant to the provisions of Prevention of Money Laundering Act, 2002, if after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, on failure to provide required documentation, information, etc. by the Unit holder the AMC shall have absolute discretion to report such suspicious transactions to FIU-IND and / or to freeze the folios of the investor(s), reject any application(s) / allotment of Units.

III. OTHER DETAILS

A. Periodic Disclosures such as Half yearly disclosures, half yearly results, annual report

Portfolio / Financial Results: This is a list of securities where the corpus of the scheme is currently invested. The market value of these investments is also stated in portfolio disclosures.

The Mutual Fund shall within one month of the close of each half year i.e., 31st March and 30th September, upload the soft copy of its unaudited financial results containing the details specified in Regulation 59 on its website and shall publish an advertisement disclosing uploading of such financial results on its website, in one English newspaper having nationwide circulation and in one regional newspaper circulating in the region where the head office of the Mutual Fund is situated.

Further, the mutual fund shall also disclose the debt and money market securities transacted (including inter scheme transfers) in schemes portfolio on daily basis with a time lag of 15 days.

The Mutual Fund shall disclose the scheme portfolios as on the last day of the month/ as on the last day of every half year ended March and September within 10 days from the close of each month / half-year respectively. Further, the Mutual Fund shall also disclose portfolio of the scheme on a fortnightly basis within 5 days from the end of the fortnight. The disclosure shall be on www.samcomf.com and www.amfiindia.com. The AMC shall send via email the fortnightly statement of scheme portfolio within 5 days from the close of each fortnight and the monthly and half-yearly statement of scheme portfolio within 10 days from the close of each month / half-year respectively.

Mutual Fund shall publish an advertisement every half-year disclosing the hosting of the half-yearly statement of its schemes portfolio on its website and on the website of AMFI. Such advertisement shall be published in the all India edition of at least two daily newspapers, one each in English and Hindi. Mutual Fund shall provide a physical copy of the statement of its scheme portfolio, without charging any cost, on specific request received from a unitholder.

Annual Report: As required by the SEBI Regulations, the Fund will mail the schemewise annual report or an abridged summary thereof to all the unitholders as soon as practical after 31st March each year but not later than four months thereafter, as the Trustee may decide. In case of unitholders whose e-mail addresses are available with the Mutual Fund, the annual report or the abridged summary, as the case may be, would only be sent by email and no physical copies would be mailed to such unitholders. However, those unitholders who still wish to receive physical copies of the annual report/abridged summary notwithstanding their registration of e-mail addresses with the Fund, may indicate their option to the AMC in writing and AMC shall provide the same at nominal price. For the rest of the investors, i.e. whose email addresses are not available with the mutual fund, the AMC shall send physical copies of scheme annual reports or abridged summary to those unitholders who have 'opted-in' to receive physical copies. The AMC shall display the link of the scheme annual reports or abridged summary prominently on the Fund's website and AMFI website and make the physical copies available to the investors at its registered office at all times.

Monthly Disclosure of Average Assets Under Management (AAUM): The AMC shall disclose on a monthly basis the AAUM as per the parameters prescribed by SEBI, on its website within 7 working days from the end of the month. The Link of the AMC website for Monthly Disclosure of Average Assets Under Management (AAUM) is https://www.samcomf.com/StatutoryDisclosure

Disclosure of Risk adjusted Return - Information Ratio (IR) for Mutual Fund Schemes: To enhance transparency in disclosures by Asset Management Companies and support better investor decision-making, SEBI vide its circular no. SEBI/HO/IMD/IMD-PoD-2/P/CIR/2025/6 dated January 17, 2025, has mandated the disclosure of Information Ratio as a financial metric for evaluating scheme portfolios. The Information Ratio is an established financial metric used to measure the risk-adjusted return (RAR) of a scheme portfolio. It serves as an indicator of a portfolio manager's skill in generating excess returns relative to a benchmark while also incorporating risk factors, such as standard deviation, to assess the consistency of performance.

The AMC shall disclose the Information Ratio of each scheme portfolio on their websites daily, alongside performance disclosures. Additionally, the AMFI will ensure that such disclosures are available on its website in a comparable, downloadable (spreadsheet), and machine-readable format. This disclosure requirement shall apply only to equity-oriented schemes.

Scheme Summary Document: In terms of the requirement of SEBI vide its letter dated December 28, 2021, the AMC shall prepare a Scheme Summary Document for all the schemes which shall be updated on a monthly basis or on changes to the details and the same shall be uploaded on the websites of the AMC, AMFI and Stock Exchanges. The Link of the AMC website for Scheme Summary Document is https://www.samcomf.com/StatutoryDisclosure

Risk-o-meter: In terms of para 17.4 of SEBI master circular dated June 27, 2024, the following shall be applicable:

i. Any change in risk-o-meter shall be communicated by way of Notice cum Addendum and by way of an e-mail or SMS to unitholders of that particular scheme.

ii. Mutual Funds shall disclose the risk level of schemes as on March 31 of every year, along with number of times the risk level has changed over the year, on their website and AMFI website.

iii. Mutual Funds shall publish a table of scheme wise changes in Risk-o-meter in scheme wise Annual Reports and Abridged summary.

iv. The Risk-o-meter of the fund/s is/are evaluated on monthly basis and any changes to Risk-o-meter are disclosed vide addendum on monthly basis, to view the latest addendum on Risk-o-meter, please visit link https://www.samcomf.com/downloads

Investment by the Designated Employees of AMC in the Scheme: Pursuant to para 6.10 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, pertaining to 'Alignment of interest of Designated Employees of AMC's with the Unitholders of the Mutual Fund Schemes', investors are requested to note that a part of compensation of the Designated Employees of AMC, as defined by SEBI, shall be mandatorily invested in units of the schemes in which they have a role/oversight effective October 01, 2021.

Further, investors are requested to note that such mandatory investment in units of the scheme shall be made on the day of payment of salary and in proportion to the AUM of the schemes in which such Designated Employee has a role/oversight. AMC shall ensure compliance with the provisions of the said circular and further, the disclosure of such investment shall be made at monthly aggregate level showing the total investment across all relevant employees in scheme on website of AMC (Link: https://www.samcomf.com/StatutoryDisclosure

Further, in accordance with the said regulatory requirement, the minimum application amount and minimum redemption amount as specified for the scheme will not be applicable for investment made in scheme in compliance with the aforesaid guidelines.

B. Transparency/NAV Disclosure (Details with reference to information given in Section I)

The AMC shall calculate and disclose the first NAV within five business days from the date of allotment. Subsequently, the NAV will be calculated and disclosed at the close of every Business Day. NAV will be determined on every Business Day except in special circumstances. NAV shall be calculated for upto two decimal places. NAV of the scheme shall be prominently disclosed by the AMC under a separate head on the AMC's website (https://www.samcomf.com/nav-details) and on the website of AMFI (www.amfiindia.com) by 11.00 p.m. on every business day (subject to following exception).

In terms of clause 8.2 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the AMC shall ensure that NAV of scheme is disclosed based on the value of underlying securities/ Funds as on the T day (i.e. date of investment in MF units in India). Accordingly, if the scheme has investment in Overseas securities, then the NAV shall be uploaded at AMFI before 10.00 a.m. on the immediately succeeding Business Day to capture same day price of underlying securities.

In case of any delay, the reasons for such delay would be explained to AMFI by the next day. If the NAVs are not available before commencement of business hours on the following day due to any reason, the AMC shall issue a press release providing reasons and explaining when the Mutual Fund would be able to publish the NAVs.

C. Transaction charges and stamp duty

- **Transaction charges:** The AMC/Mutual Fund shall deduct Transaction Charges on purchase/subscription applications received from investors that are routed through a distributor/agent/broker as follows, provided the distributor/agent/broker has opted to receive the transaction charges. The distributors have the option to either opt in or opt out of levying transaction charge based on type of the product:

a) **First time investor in Mutual Funds**: Rs.150/- on purchase/subscription application of Rs.10,000 and above.

b) **Investors other than first time investor in mutual funds**: Rs.100/- per purchase/subscription application of Rs.10,000 and above

c) **Investments through Systematic Investment Plan (SIP)** - the Transaction Charge shall be deducted only if the total commitment through SIP (i.e. amount per SIP instalment x No. of SIP instalments) amounts to Rs.10,000/- and above. The Transaction Charge shall be deducted in 3 or 4 instalments, as may be decided by the AMC from time to time.

Units will be allotted for the balance subscription amount (net of the transaction charge deducted).

Please refer to SAI for further details.

- **Stamp duty**: Mutual fund units issued against Purchase transactions (whether through lump-sum investments or SIP or STP or switch-ins or reinvestment under IDCW Option) would be subject to levy of stamp duty @ 0.005% of the amount invested. Transfer of mutual fund units (such as transfers between demat accounts) are subject to payment of stamp duty @ 0.015%. The rate and levy of stamp duty may vary as amended from time to time. As per section 139AA of the Act read with rule 114AAA of the Income-tax Rules, 1962, in the case of a resident person, whose PAN has become inoperative due to non-linking of PAN with Aadhaar, it shall be deemed that he has not furnished the PAN and tax could be withheld at a higher rate of 20% as per section 206AA of the Act.

Specified Person (i.e. Non-filer of Income Tax Return)

As per section 206AB of the Act, tax to be deducted at twice the applicable rate in case of payments to Specified Person (except non-resident not having permanent establishment in India or person who is not required to furnish the return of income as notified by the Central Government) who has not furnished the return of income for the assessment year relevant to previous year immediately preceding the financial year in which tax is required to be deducted:

- For which time limit for filing return has expired; and
- The aggregate of tax deducted at source or tax collected at source in his case is Rs. 50,000 or more in the said previous year.

Additionally, if provisions of section 206AA are also applicable then tax to be deducted at higher of the two rates provided i.e. rate as per section 206AB or section 206AA.

Securities Transaction Tax (STT)

The Scheme will attract securities transaction tax (STT) at 0.001% on the redemption value.
